How to Write and Publish a Scientific Paper Barbara Gastel, Robert A. Day, 2022-06-30 Thoroughly updated throughout this classic practical text on how to write and publish a scientific paper takes its own advice to be as clear and simple as possible. The purpose of scientific writing according to Barbara Gastel and Robert A. Day is to communicate new scientific findings. Science is simply too important to be communicated in anything other than words of certain meaning. This clear beautifully written and often funny text is a must have for anyone who needs to communicate scientific information whether they're writing for a professor, other scientists or the general public. The thoughtfully revised 9th edition retains the most important material including preparing text and graphics, publishing papers and other types of writing and plenty of information on writing style while adding up to date advice on copyright, presenting online, identifying authors, creating visual abstracts and writing in English as a non native language. A set of valuable appendixes provide ready reference including words and expressions to avoid, SI prefixes, a list of helpful websites and a glossary. Students and working scientists will want to keep *How to Write and Publish a Scientific Paper* at their desks and refer to it at every stage of writing and publication.

The Essential College Professor Jeffrey L. Buller, 2009-12-21 *The Essential College Professor* is about the how and why of being a faculty member today. Based on the author's series of highly successful faculty development workshops, each chapter deals concisely with the most important information college professors need at their fingertips when confronted by a particular challenge or faced with an exciting opportunity. Written both as a comprehensive guide to an academic career and as a ready reference to be consulted whenever needed, *The Essential College Professor* emphasizes proven solutions over untested theories and stresses what faculty members have to know now in order to be successful in their careers. Each chapter is concluded by a short exercise that faculty members can perform to help them, for instance, completely revise a course by restructuring the syllabus and course materials, bring new life to a research project by reframing it as a book proposal or grant application and so on.
