Hood V. State of Wisconsin Department of Corrections, 1996 *Correctional Officers in America* Stephen Paul Walters, Tom Caywood, 2006 This study examines the social science research which describes the occupational environment of correctional officers Abandoning common popular misconceptions of prison guards the authors analyze who correctional officers are how they are trained and the common problems that they share while maintaining security in America's prisons This study examines the role of prisons in society today how that role has changed over time and how correctional officers have been required to change as well The formal structure of prisons is explored and a wide ranging discussion of the interpersonal problems encountered by correctional officers is presented including their interaction with inmates the psychological problems that may result from this interaction and the manner in which correctional officers adapt to these pressures Correctional officers are shown to be an increasingly diverse group of trained professionals sharing many commonalities yet also differing in many significant ways *NIJ Reports*, 1990 *Sex Offender Registration and Notification*, 1999 *Probation, Parole, and Community Corrections in the United States* Dean Champion, 2008 For courses in Introduction to Probation Parole and Community Corrections Filled with the most up to date statistics cases and citations this text offers a comprehensive look at the probation and parole process for both juvenile and adult offenders Known for its extensive coverage it includes discussion of offender needs and risks a variety of supervision programs inmate re entry issues and solutions and theories of crime and rehabilitation Readers are provided with samples of important forms and paperwork while special features highlight international practices and stories from the field *The State of Wisconsin Blue Book*, 2007 *Monthly Labor Review*, 1977 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews **Treating the Criminal Offender** Alexander B. Smith, Louis Berlin, 2013-11-11 The second edition of *Treating the Criminal Offender* was written in an atmosphere of disillusionment and severe criticism of the traditionalist approach to treatment As crime rates soared the voices of the critics rose in volume and intensity And so this third edition revised toward the end of the decade of the 1980s embodies the shift in emphasis from rehabilitating the offender to protecting the community This shift in our opinion does not reject the goal of changing the offender so as to effect his reintegration into society it uses the strategy of intensive supervision and surveillance only to effect the desired goal The use of electronics to monitor the offender's whereabouts and the swift application of punitive measures following the awareness of any violation are extrinsic techniques of control It is our opinion that for the deep more lasting changes in behavior some form of casework counseling and or psychotherapeutic intervention is essential We are the cohorts who believe in the effectiveness of such treatment modalities when and if applied to the right target population at the appropriate time *Document Retrieval Index*, 1976 **Impact of Unemployment on Children and Families** United States.
