

IELTS Task 1 Essay Sample

The two graphs show people's trust in news and their news sources within a 7-day time period. Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Trust in news sources

News sources used

The two bar charts show how much people trusted certain sources of news, as well as which news sources they consumed in the last 7 days.

Overall, we can see that the most trusted news sources were local TV news and radio news, while online-only sources were considered the least trustworthy. Meanwhile, a large majority said they watched local or national TV as well as newspapers in the past week.

Starting with how much people trusted news, local TV news was the most trusted among respondents, with around 53%. This was slightly ahead of radio news, with 48%, and national network news with 46%. However, the least trusted sources were online-only sources, with only 25% stating they highly trusted it, and 20% saying they highly distrusted it, which is the highest in the first graph. Meanwhile the distrust in all other sources ranged between only 13% and 8%.

In regards to the sources of news used, as well as being the most trusted, local TV news was also the most viewed in the past week. 80% of respondents had watched it, and just over 70% had watched national network news, followed by newspapers, with 65%. The least consumed sources were online and magazines, with 48% and 38% respectively.
