grown up since these borders came down freed from the restrictions of the Cold War era But what has the Iron Curtain left in its wake Timothy Phillips travels its full 3 000 mile route from inside the Arctic Circle to where Armenia meets Azerbaijan and Turkey to craft this epic new people s history of a defining 20th century conflict Here in the borderlands where a powerful clash of civilizations took form in concrete and barbed wire he uncovers the remarkable stories of everyday people forever imprinted by life in the Curtain s long shadow Some look back on the era with nostalgia even affection while others despise it unable to forgive the decades of hardship their families and nations endured A director recalls the astonishing night his movie premiered in East Germany November 9 1989 the very night the Berlin Wall fell And a railroad worker recounts the 1951 hijacking of a passenger train from Czechoslovakia that breached the Curtain granting those aboard immediate asylum in the West These narratives by turns harrowing and heartening paint a vivid portrait of the new Europe that emerged from the ruins Phillips reveals the Iron Curtain s profound impact on our world today even as he punctures the fault lines we draw Publisher s note This book was published in the UK under the title *The Curtain and the Wall*

Christian Nationalism, Nation-Building, and the Making of the Holocaust in Slovakia Hana Kubátová, 2025-02-10 Previous scholarship on fascism in Slovakia has focused on either state actors operating from urban centres or the mechanisms of violence on a grassroots level with the result being that the Holocaust is seen as primarily a top down and state centred process In contrast Hana Kubátová reveals here a dynamic and unexplored centre periphery relationship and how violence against the Jewish population unfolded in both cities and the countryside and on both national and local levels As an integral component of broader nation building efforts the authority of the fascist regime and the newly founded Slovak state hinged not only on appeasing Hitler but also on civilian populations of the nation s heterogeneous eastern borderlands especially local elites such as priest and teachers as well as the rural masses The book explores how this relationship was forged how it was maintained and how ultimately Christian nationalism operated as a political strategy that brought differently positioned actors together to broker deals over resources and power accrued through the co enactment of genocide by a broad coalition of perpetrators on the ground In so doing this little known chapter of Holocaust history offers a new way to understand the dynamics and escalations of mass violence and how collaborations between elite and popular groups can pave the way for ethnic cleansing across different territories and even times

Hate Speech and Human Rights in Eastern Europe Viera Pejchal, 2020-04-03 Hate Speech and Human Rights Democracies need to understand these terms to properly adapt their legal frameworks Regulation of hate speech exposes underlining and sometimes invisible societal values such as security and public order equality and non discrimination human dignity and other democratic vital interests The spread of hatred and hate speech has intensified in many corners of the world over the last decade and its regulation presents a conundrum for many democracies This book presents a three prong theory describing three different but complementary models of hate speech regulation which allows stakeholders to better address this phenomenon It examines international and national legal frameworks and related case law as well as pertinent scholarly literature review to highlight this development After a period of an absence of free speech during communism post communist democracies have sought to build a framework for the exercise of free speech while protecting public goods such as liberty equality and human dignity The three prong theory is applied to identify public goods and values underlining the regulation of hate speech in the Czech Republic and Slovakia two countries that share a political sociological and legal

history as an example of the differing approaches to hate speech regulation in post communist societies due to divergent social values despite identical legal frameworks This book will be of great interest to scholars of human rights law lawyers judges government NGOs media and anyone who would like to understand values that underpin hate speech regulations which reflect values that society cherishes the most **Permanent Distortion** Nomi Prins,2022-10-11 A riveting expos of a permanent financial dystopia its causes and real world consequences It is abundantly clear that our world is divided into two very different economies The real one for the average worker is based on productivity and results It behaves according to traditional rules of money and economics The other doesn't It is the product of years of loose money poured by central banks into a system dominated by financial titans It is powerful enough to send stock markets higher even in the face of a global pandemic and threats of nuclear war This parting from reality has its roots in an emergency response to the financial crisis of 2008 Quantitative Easing injected a vast amount of cash into the economy especially if you were a major Wall Street bank What began as a short term dependency became a habit then a compulsion and finally an addiction Nomi Prins relentlessly exposes a world fractured by policies crafted by the largest financial institutions led by the Federal Reserve that have supercharged the financial system while selling out regular citizens and leading to social and political reckonings She uncovers a newly polarized world of the mega rich versus the never rich the winners and losers of an unprecedented distortion that can never return to normal **New Trends in Process Control and Production Management** Lenka Štofová,Petra Szaryszová,2017-09-27 Dynamic economics technological changes increasing pressure from competition and customers to improve manufacturing and services are some of the major challenges to enterprises these days New ways of improving organizational activities and management processes have to be created in order to allow enterprises to manage the seemingly intensifying competitive markets successfully Enterprises apply business optimizing solutions to meet new challenges and conditions But also ensuring effective development for long term competitiveness in a global environment This is necessary for the application of qualitative changes in the industrial policy **New Trends in Process Control and Production Management** MTS 2017 is the collection of research papers from authors from seven countries around the world They present case studies and empirical research which illustrates the progressive trends in business process management and the drive to achieve enterprise development and sustainability **Eastern European Youth Cultures in a Global Context** Matthias Schwartz,Heike Winkel,2016-04-29 The demise of state Socialisms caused radical social cultural and economic changes in Eastern Europe Since then young people have been confronted with fundamental disruptions and transformations to their daily environment while an unsettling globalized world substantially reshapes local belongings and conventional values In times of multiple instabilities and uncertainties this volume argues young people prefer to try to adjust to given circumstances than to adopt the behaviour of potential rebellious adolescent role models dissident counter cultures or artistic breakings of taboo **Eastern European Youth Cultures in a Global Context** takes this situation as a starting point for

an examination of generational change cultural belongings political activism and everyday practices of young people in different Eastern European countries from an interdisciplinary perspective It argues that the conditions of global change not only call for a differentiated evaluation of youth cultures but also for a revision of our understanding of youth itself in Eastern Europe and beyond

The Legitimacy of Family Rights in Strasbourg Case Law Carmen Draghici, 2017-02-09 Modern family life exhibits a huge variety of new forms Legal responses to these new forms illustrate the continuing differences between European nations Nonetheless the Strasbourg Court has been increasingly active in this area which provides fertile ground for testing the legitimacy of the Court's interpretation of the European Convention on Human Rights When national law refuses to recognize a claimed right litigants regularly reassert that right before the Strasbourg Court This has forced it to seek answers to complex domestic controversies such as the legal recognition for same sex partners and transgender persons the ethics of adoption and reproductive rights the legal regime for cohabitants or the accommodation of immigrants aspiration to family reunion Placing family rights at the core of the judicial legitimacy debate this book provides a critical analysis of the standards of family rights protection under the Convention It evaluates the Court's interpretive methodology and discusses the tensions inherent in its supranational quasi constitutional function These include the risk of excessive deference to national authorities at the expense of the effective enforcement of universal rights the addition of new rights and inattention to the division of responsibilities between democratic processes within sovereign States and the subsidiary international review
