Written for trainee and experienced ICT teachers and managers in both English and international schools, The ICT Teacher's Handbook is an authoritative guide designed to support effective teaching and learning and efficient use of technology in all schools.

Secondary History in Action Catherine Priggs, Hugh Richards, David Hibbert, Elizabeth Carr, 2025-06-06 Drawing on over 60 years combined experience of history teaching and history curriculum leadership, Carr, Hibbert, Priggs and Richards explore ways to make history memorable, engage students in historical thinking and secure excellent outcomes for all. Their perspective is grounded in history's disciplinary distinctiveness and a vision for its purpose in students' education. The authors of *Secondary History in Action* articulate practical approaches to history curriculum design, ways to teach disciplinary history in the classroom and methods to assess students' knowledge and understanding. They draw together recent research and established traditions in history teaching discourse in a coherent summary that will be helpful to trainee and beginning teachers, non-specialist teachers of history, subject leaders and senior leaders/line managers of history departments.

Debates in Geography Education Mark Jones, David Lambert, 2017-09-07 *Debates in Geography Education* encourages early career teachers, experienced teachers and teacher educators to engage with and reflect on key issues, concepts and debates. It aims to enable readers to reach their own informed judgements with deeper theoretical knowledge and understanding. The second edition is fully updated in light of the latest research, policy and practice in the field as well as key changes to the curriculum and examination specifications. Expert contributors provide a range of perspectives on international historical and policy contexts in order to deepen our understanding of significant debates in geography education. Key debates include geography's identity as an academic discipline, what constitutes knowledge in geography, places and regional geography, what it means to think geographically, constructing the curriculum, how we link assessment to making progress in geography, the contribution of fieldwork and outdoor experiences, technology and the use of Geographical Information Systems, school geography and employability, understanding the gap between school and university geography, evidence-based practice and research in geography education. The comprehensive, rigorous coverage of these key issues together with carefully annotated selected further reading will help
