*The Smells and Senses of Antiquity in the Modern Imagination* Adeline Grand-Clément, Charlotte Ribeyrol, 2021-12-16

This volume tackles the role of smell under explored in relation to the other senses in the modern rejection reappraisal and idealisation of antiquity Among the senses olfaction in particular has often been overlooked in classical reception studies due to its evanescent nature which makes this sense difficult to apprehend in its past instantiations And yet the smells associated with a given figure or social group convey a rich imagery which in turn connotes specific values perfumes scents and foul odours both reflect and mould the ways in which a society thinks or acts Smells also help to distinguish between male and female citizens and strangers and play an important role during rituals The Smells and Senses of Antiquity in the Modern Imagination focuses on the representation of ancient smells both enticing and repugnant in the visual and performative arts from the late 18th century up to the 21st century The individual contributions explore painting sculpture literature and film but also theatrical performance museum exhibitions advertising television series historical reenactment and graphic novels which have all played a part in reshaping modern audiences perceptions and experiences of the antique

Rudolph, 2017-07-31 Olives bread meat and wine it is deceptively easy to evoke ancient Greece and Rome through a few items of food and drink But how were their tastes different from ours How did they understand the sense of taste itself in relation to their own bodies and to other modes of sensory experience This volume the first of its kind to explore the ancient sense of taste draws on the literature philosophy history and archaeology of Greco Roman antiquity to provide answers to these central questions By surveying and probing the literary and material remains from the Archaic period to late antiquity contributors investigate the cultural and intellectual development towards attitudes and theories about taste These specially commissioned chapters also open a window onto ancient thinking about perception and the body Importantly these authors go beyond exploring the functional significance of taste to uncover its value and meaning in the actions thoughts and words of the Greeks and Romans Taste and the Ancient Senses presents a full range of interpretative approaches to the gustatory sense and provides an indispensable resource for students and scholars of classical antiquity and sensory studies

**The Scent of Ancient Magic** Britta K. Ager, 2022-04-27 Magic was a fundamental part of the Greco Roman world Curses erotic spells healing charms divination and other supernatural methods of trying to change the universe were everyday methods of coping with the difficulties of life in antiquity While ancient magic is most often studied through texts like surviving Greco Egyptian spellbooks and artifacts like lead curse tablets for a Greek or Roman magician a ritual was a rich sensual experience full of unusual tastes smells textures and sounds bright colors and sensations like fasting and sleeplessness Greco Roman magical rituals were particularly dominated by the sense of smell both fragrant smells and foul odors Ritual practitioners surrounded themselves with clouds of fragrant incense and perfume to create a sweet and inviting atmosphere for contact with the divine and to alter their own perceptions they also used odors as an instrumental weapon to attack enemies and command the gods

Elsewhere odiferous herbs were used equally as medical cures and magical ingredients In literature scent and magic became intertwined as metaphors with fragrant spells representing the dangers of sensual perfumes and conversely smells acting as a visceral way of envisioning the mysterious action of magic The Scent of Ancient Magic explores the complex interconnection of scent and magic in the Greco Roman world between 800 BCE and CE 600 drawing on ancient literature and the modern study of the senses to examine the sensory depth and richness of ancient magic Author Britta K Ager looks at how ancient magicians used scents as part of their spells to put themselves in the right mindset for an encounter with a god or to attack their enemies through scent Ager also examines the magicians who appear in ancient fiction like Medea and Circe and the more metaphorical ways in which their spells are confused with perfumes and herbs This book brings together recent scholarship on ancient magic from classical studies and on scent from the interdisciplinary field of sensory studies in order to examine how practicing ancient magicians used scents for ritual purposes how scent and magic were conceptually related in ancient literature and culture and how the assumption that strong scents convey powerful effects of various sorts was also found in related areas like ancient medical practices and normative religious ritual

medicine and shapes our understanding of topics ranging from aesthetics and poetics to various religious and ritual practices Whether we locate the sense of touch on the surface of the skin within the body or less tangibly still within the emotions the sensory impact of touching raises a broad range of interpretive and phenomenological questions This is the first volume of its kind to explore the sense of touch in antiquity bringing a variety of disciplinary approaches to bear on the sense that is usually disregarded as the most base and obvious of the five In these pages by contrast we find in touch a complex and fascinating indicator of the body's relation to object environment and self
