The Death and Life of the Great American School System Diane Ravitch, 2010-03-02 Discusses how school choice misapplied standards of accountability the No Child Left Behind mandate and the use of a corporate model have all led to a decline in public education and presents arguments for a return to strong neighborhood schools and quality teaching The New York Times Index, 1928 Big-City School Reforms Michael Fullan, Alan Boyle, 2014 Big cities have struggled to improve public school systems This book shows why and offers a framework for achieving future success Fullan and Boyle internationally renowned thinkers on school change demonstrate that while the educational challenges of big cities may be overwhelming they are not insurmountable They draw on ten years of research to identify six essential push and pull actions that enable big school systems to improve student achievement Leaders must push to challenge the status quo convey a high sense of urgency and have the courage needed to intervene But they need to also pull together to create a commonly owned strategy develop professional power and attend to sustainability Examining three major cities New York Toronto and London through the decade of 2002 2012 this book weaves case studies with careful analysis and recommendations to hone in on which policies and strategies work best to raise the bar for all students and reduce the gap for the disadvantaged Big City School Reforms offers invaluable advice to those leading the next phase of school reform in cities around the world This is an eminently practical book that focuses on big problems and big solutions This encouraging book draws on the recent experiences of New York London and Toronto to identify what it takes to transform big city school systems It recognises their complexities without being overawed by them By concentrating on the factors that seem to matter most it offers real hope that we can now tackle some of the key issues that have frustrated reform efforts in the past Geoff Whitty director emeritus Institute of Education University of London UK Fullan and Boyle present a compelling framework for motivating and sustaining improvement in large urban school districts The authors premise that system leaders must optimally balance push and pull strategies serves as an important lesson to school level leaders as well Sandra J Stein education and leadership consultant In this important new book Fullan and Boyle answer the most important question facing the leaders of the world s major cities what will it take to significantly improve the quality of public education Through a sophisticated analysis of the policies pursued in New York Toronto and London the authors make it possible for us to see why some cities are making more progress than others Their clear and compelling insights couldn t be more relevant and timely Pedro A Noguera Peter L Agnew Professor of Education Steinhardt School of Culture Education and Development Executive Director Metropolitan Center for Urban Education New York University Michael Fullan Order of Canada is professor emeritus of the Ontario Institute for Studies in Education at the University of Toronto Alan Boyle is director of Leannata Education Associates where he designs professional learning for education leaders Documents of the Assembly of the State of New York New York (State). BLOOMBERG Sally A. Friedman,2010-07-12 This is an expos detailing New York City Mayor Michael Bloomberg s education and construction policies between 2002 and 2009 inclusive It covers all major education issues schools chancellor school budget grading of the schools reducing class sizes small charter and culturally themed schools standardized testing school safety overcrowding and mayoral control and all major real estate development issues rezoning ULURP self certification various fatal construction accidents and disasters affordable housing lack of construction law enforcement and the large projects that characterized the administration This book features a list of abbreviations and a comprehensive index in the back A page of the Introduction p 11 is crucial for understanding references made throughout the book Therefore it is reproduced below Making himself available to parents The mayor performed the important tasks of negotiating with the unions securing funding from the higher powers and making public relations appearances when there was good news to report I have observed that there were three recurring themes in Mr Bloomberg s modus operandi in both Education and Real Estate Development Theme 1 He was overly optimistic As his various education initiatives and construction projects progressed he routinely threw around and changed numbers on standardized test scores graduation rates school openings school crime rates construction costs creation of jobs and affordable housing units among others and sometimes even distorted facts outright Theme 2 Time after time Mr Bloomberg asked for input from the community or purported to on new school openings and on construction of schools and other projects but usually ended up hiring his cronies and ignored the community s wishes Theme 3 He took advantage of legal loopholes or skirted around the law to forge ahead with his agendum His agendum was to acquire power Why else did he take control of the schools and overturn term limits It was not for the money In November 2009 Mr Bloomberg won his third term election bid by a narrow margin mostly because he was still viewed as a stronger candidate than the opposing one His power and popularity were waning however rocked by various investigations in recent years including a slush fund scandal and corruption and

sloppiness in construction that led to fatal accidents that resulted in the termination of decades long unethical practices Further he was accused of being involved in various conflicts of interest and of being hypocritical on environmental and health issues Two farmyard clichés and one generic cliché also aptly describe many occurrences during the Bloomberg administration between 2002 and 2009 Cliché 1 Just another case of the fox guarding the henhouse Cliché 2 Closing the barn door after the horses have already fled Cliché 3 Do as I say not as I do The above themes and clichés are so common in my text that I refer to their generic names i.e. I will use the blog style for example File under Theme 1 or File under Cliché 2 when providing evidence of same Enjoy

A remarkable new book Wise and energetic advocates such as Kahlenberg and Potter can take the charter movement in new and useful directions The Washington Post Moving beyond the debate over whether or not charter schools should exist A Smarter Charter wrestles with the question of what kind of charter schools we should encourage The authors begin by tracing the evolution of charter schools from teacher union leader Albert Shanker's original vision of giving teachers room to innovate while educating a diverse population of students to today's charter schools where the majority of teachers are not unionized and student segregation levels are even higher than in traditional public schools In the second half of the book the authors examine two key reforms currently seen in a small but growing number of charter schools teacher voice and socioeconomic integration that have the potential to improve performance and reshape the stereotypical image of what it means to be a charter school Important reading for policymakers educators researchers and all citizens interested in the future of America's public schools A Smarter Charter features Profiles of charter schools that are bucking the prevailing trends including their performance data and the challenges they face Best practices from successful charter schools such as methods for attracting a diverse student body and examples of innovative teacher contracts Reform strategies that can improve student outcomes in a variety of public schools not just charters Kahlenberg and Potter have delivered a thought provoking serious contribution Agree or not with their views on the purpose and performance of charter schools they have important things to say on where charters have been where they need to go and how they can get there Friends and foes of charter schooling alike would do well to read this book Frederick M Hess resident scholar and director of Education Policy Studies American Enterprise Institute Read this book and draw inspiration and ideas from charter schools and educators bucking the trend and reclaiming that original collaborative and powerful promise and spirit I hope parents educators in all sectors concerned citizens policymakers philanthropists and charter sector leaders will take its compelling message to heart and act on it Dennis Van Roekel former president National Education Association A tour de force laying out in singular fashion what has gone wrong with the charter school movement and what must be done to get it back on track A Smarter Charter is a must read for those concerned with the future of
