Difficult Attachments Kathryn E. Goldfarb, Sandra Bamford, 2024-10-11 Anthropologists have long considered kinship as the basis for social solidarity Indeed the idea that kinship is grounded in positive sociality has found its way into most anthropological accounts and has served as an orienting framework directing decades of scholarly research But what about when it is not What about instances when kinship is anything but warm and fuzzy but is characterized instead by neglect violence negative affect or a lack of nurturance and care In the three interlinked sections of this volume the view that kinship is about solidarity and care is challenged by exploring how kin relations are not only about connection and inclusion but also about disconnection exclusion neglect and violence Kinship relationships that feel positive and good take a great deal of perseverance and work there is nothing natural about kinship ties as being based on positive sociality In these chapters the contributors take seriously the contingency of kinship relations the moments when kinship breaks down or is a source of suffering and how this prompts scholars to develop new theoretical and methodological perspectives *Capitalism Beyond Mutuality?* Subramanian Rangan, 2018 Trust in business is declining because business has focused too much on performance and too little on progress From climate change to unfair compensation and technology related fears our list of concerns is large and growing This text explores how economic actors might evolve their paradigms preferences and practices

Vargo, 2014-12-18 Expanding on the editors award winning article *Evolving to a New Dominant Logic for Marketing* this book presents a challenging new paradigm for the marketing discipline This new paradigm is service oriented customer oriented relationship focused and knowledge based and places marketing once viewed as a support function central to overall business strategy Service dominant logic defines service as the application of competencies for the benefit of another entity and sees mutual service provision rather than the exchange of goods as the proper subject of marketing It moves the orientation of marketing from a market to philosophy where customers are promoted to targeted and captured to a market with philosophy where the customer and supply chain partners are collaborators in the entire marketing process The editors elaborate on this model through an historical analysis clarification and extension of service dominant logic and distinguished marketing thinkers then provide further insight and commentary The result is a more comprehensive and inclusive marketing theory that will challenge both current thinking and marketing practice Best Business Schools' Admissions Secrets Chioma Isiadinso, 2014-08-05 The top secrets to getting into the best MBA programs from a leading industry expert Top MBA programs reject more than 80 percent of their applicants but author Chioma Isiadinso s admissions consulting firm has successfully guided 90 percent of her students into the best business schools around the world As a former Admissions Board Member Isiadinso offers insider tips and strategies to help applicants get into the school of their choice by building and promoting their personal brand This revised and updated edition now offers the do s and don ts of social media networking sample admissions essays that worked an international perspective for global admissions appeal **Capitalism--its Nature and its Replacement** Graham Priest, 2021-10-14 In this third decade of the 21st century deep problems plague our world Many people lack adequate nutrition health care and education because while there is enough wealth for everyone to meet these basic needs most of it is tightly controlled by precious few Global warming causes droughts floods rising sea levels and soon the forced migrations of millions of people In this book philosopher Graham Priest explains why we find ourselves in this situation defines the nature of the problems we face and explains how we might solve and move beyond our current state The first part of this book draws on Buddhist philosophy Marx s analysis of capitalism and their complementary role in explaining our present crisis and the events that led us here In the second part of the book Priest turns to the much harder question of how one might go

about creating a more rational and humane world Here he draws again on Buddhist and Marxist ideas as well as some key aspects of anarchist thought His discussion of the need for bottom up control of production power ideology and an emerging awareness of our interdependence is a must read for anyone who cares about the future of the planet and our latent capacity to care for each other Key Features Explains the necessary elements of Marxist Buddhist and anarchist thought no background knowledge of political theory or Buddhism is necessary Shows how Buddhist and Marxist notions of persons are complementary Convincingly shows capitalism s role in creating current socio economic problems Provides an analysis of the corrosiveness of top down power structures and why they should be eliminated in a post capitalist state Discusses capitalism s role in war environmental degradation and race and gender based oppression The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution CC BY 4.0 license
