A Different Trek David K. Seitz, 2023-07 A different kind of Star Trek television series debuted in 1993 Deep Space Nine was set not on a starship but a space station near a postcolonial planet still reeling from a genocidal occupation The crew was led by a reluctant Black American commander and an extraterrestrial first officer who had until recently been an anticolonial revolutionary DS9 extended Star Trek's tradition of critical social commentary but did so by transgressing many of Star Trek's previous taboos including religion money eugenics and interpersonal conflict DS9 imagined a twenty fourth century that was less a glitzy utopia than a critical mirror of contemporary U S racism capitalism imperialism and heteropatriarchy Thirty years after its premiere DS9 is beloved by critics and fans but remains marginalized in scholarly studies of science fiction Drawing on cultural geography Black studies and feminist and queer studies A Different Trek is the first scholarly monograph dedicated to a critical interpretation of DS9's allegorical world building If DS9 has been vindicated aesthetically this book argues that its prophetic place based critiques of 1990s U S politics which deepened the foundations of many of our current crises have been vindicated politically to a degree most scholars and even many fans have yet to fully appreciate

Why TV Is Not Our Fault Eileen R. Meehan, 2005-11-03 For more than five decades we've been told by pundits commentators advertisers scholars and politicians that television is both a window on the world and a mirror reflecting our culture We've been led to believe that it shows us the world's events through news programs and through entertainment programs reflects the preferences values beliefs and understandings shared by most Americans We're told that if you don't like what you see on TV don't blame the industry blame yourself This book dispels the myth that the television industry is just giving viewers the programming they want to see and thus we as viewers are responsible for the existence of shows like Fear Factor and yet another Survivor In fact Eileen Meehan explains viewers exert no demand in the market for ratings advertising slots program production or telecasting She also counters the idea that TV programs reflect our culture directly Introducing us to the political economy of television Meehan covers

programming corporate strategies advertising the misnomer of competition among networks and organizations that seek more industry accountability She tells us why TV isn't our fault_ and who's really to blame *Dangerous Liaisons* Giorgio Baruchello, Ársæll Már Arnarsson, 2023-10-24 Humor and cruelty can be the best of friends Many cruel domains have facilitated hilarity of all kinds whether experienced directly or vicariously stretching from the torture chamber to the living room or wherever else a screen is to be found Conversely many jests have provided the vehicle with which to dispense cruelty whether callously or gleefully in myriad settings from public events to intimate family dinners Combining the sources and resources of the humanities and social sciences this book investigates the mutually supportive liaisons of humor and cruelty We unearth the brutal aggressive and or sadomasochistic roots of mockery and self mockery sarcasm and satire whilst addressing contemporary debates in humor studies focusing on the thorny ethics and existential challenges arising from the acceptance of the much appreciated yet seldom innocent channel for human interaction called humor Like Aristotle and Dewey Arnarsson and Baruchello do not define their terms at the outset but instead they relentlessly pursue the meanings of two ordinary words that everyone vaguely understands to arrive at a critical insight into the concepts these words represent which are both disparate and interrelated Richard Marc Rubin President George Santayana Society **The Multimedia and CD-ROM Directory**, 1998 *Star Trek and the Tragic Hybrid* Carolyn Burlingame-Goff, 2024-06-06 Spock Data Worf B'Elanna Torres Seven of Nine Odo Michael Burnham Soji Many of Star Trek's most beloved characters are children of two worlds the products of competing biologies materials and cultures Their popularity is unsurprising authors mine conflicted identities for dramatic effect and viewers see their own struggles reflected in the challenges of individuals who never seem to quite fit in This book demonstrates that the tradition is not new Spock and his fellow hybrids have their roots in anti slavery literature Abolitionist authors introduced protagonists who were both Black and White yet not fully accepted as either Divided at their core the attempts of these noble yet tortured individuals to bridge their two races inevitably ended in tragedy Gene Roddenberry and his successors thrust the character type into the future using it to explore the evolving racial attitudes of their times Star Trek's tragic hybrids have asked audiences to see beyond color to embrace multiculturalism to accept mixed race identity and finally to acknowledge the consequences of systemic oppression

Exploring Star Trek: Voyager Robert L. Lively, 2020-04-16 In 1995 Star Trek Voyager brought a new dynamic to Star Trek's familiar starship oriented show Lost 70 000 light years in space Voyager and its crew faced an uncertain and changeable future echoing anxieties felt in the United States at the time These fifteen essays explore the context characters and themes of Star Trek Voyager as they relate to the culture and zeitgeist of the 1990s Essays on gender show how the series both challenges and reinforces typical SF stereotypes through the characters of Captain Janeway Kes and Seven of Nine while essays on identity examine the show's intersections with disability studies race and multiracial identities family dynamics and emerging AI and humanity Using the epic journey of Homer's Odyssey as a starting point for the series and

ending with an examination of the impacts of inception at the birth of the internet age this book shows the many ways in which Voyager negotiated different perspectives for what the future of the galaxy and the USA could be *Queer TV* Nancy San Martin, 2002
