The Works of Beaumont&Fletcher ... from a New Collation of the Early Editions. With Notes and a Biographical Memoir by the Rev. Alexander Dyce Francis Beaumont,1844 *Sensibility in the Early Modern Era* Anik Waldow,2018-02-02 *Sensibility in the Early Modern Era* investigates how the early modern characterisation of sensibility as a natural property of the body could give way to complex considerations about the importance of affect in morality What underlies this understanding of sensibility is the attempt to fuse Lockean sensationism with Scottish sentimentalism being able to have experiences of objects in the world is here seen as being grounded in the same principle that also enables us to feel moral sentiments Moral and epistemic ways of relating to the world thus blend into one another as both can be traced to the same capacity that enables us to affectively respond to stimuli that impinge on our perceptual apparatus This collection focuses on these connections by offering reflections on the role of sensibility in the early modern attempt to think of the human being as a special kind of sensitive machine and affectively responsive animal Humans as they are understood in this context relate to themselves by sensing themselves and perpetually refining their intellectual and moral capacities in response to the way the world affects them Responding to the world here refers to the manner in which both natural and man made influences impact on our ability to conceptualise the animate and inanimate world and our place within that world This book was originally published as a special issue of the Intellectual History Review **Thomas Dekker and the Culture of Pamphleteering in**

Early Modern London Dr Anna Bayman, 2014-04-28 The book looks at the career of the London playwright and prose pamphleteer Thomas Dekker between the years 1613 and 1628 The period and subject matter link the book with mainstream historical and literary topics most particularly to the longer term history of the Civil Wars and to popular literature and drama in the age of Shakespeare and Jonson Pamphlets have been used as sources for topics ranging from witchcraft to popular politics and this book seeks to inform more careful readings of such sources Drawing on interdisciplinary historical methods and literary scholarship it uses literary texts as a way into the culture of print and debate in early seventeenth century England In so doing it contributes to the post revisionist historiography of political consciousness and print cultures under the early Stuarts as well as illuminating the career of a relatively neglected and misunderstood writer **Early Printed Books as Material Objects** International Federation of Library Associations and Institutions. Rare Books and Manuscripts Section, 2010 The papers collected in this volume discuss descriptive methods and present conclusions relevant for the history of the book production and reception Books printed in Europe in the 15th and 16th century still had much in common with manuscripts They are not mere textual sources but also material objects whose physical make up and individual features need to be taken into account in library projects for cataloguing and digitization [The Early Modern Global South in Print](#) Sandra Young, 2016-03-23 Early modern geographers and compilers of travel narratives drew on a lexicon derived from cartography's seemingly unchanging coordinates to explain human diversity Sandra Young's inquiry into the partisan knowledge practices of early modernity brings to light the emergence of the early modern global south Young proposes a new set of terms with which to understand the racialized imaginary inscribed in the scholarly texts that presented the peoples of the south as objects of an inquiring gaze from the north Through maps images and even textual formatting equivalences were established between new worlds many of them long known to European explorers she argues in terms that made explicit the divide between north and south This book takes seriously the role of form in shaping meaning and its ideological consequences Young examines in turn the representational methodologies or artes deployed in mapping the whole world illustrating creating charts for navigation noting down observations collecting and cataloguing curiosities reporting events formatting materials and editing and translating old sources By tracking these methodologies in the lines of beauty and evidence on the page we can see how early modern producers of knowledge were able to attribute alterity to the southern climes of an increasingly complex world while securing their own place within it **The Homebrewer's Garden, 2nd Edition** Joe Fisher, Dennis Fisher, 2016-05-17 If you have a backyard or even a sunny porch or balcony you can grow your own hops brewing herbs and malt grains to enhance the flavor aroma and uniqueness of your home brewed beer and ensure that you have the freshest purest best ingredients possible Simple instructions from experts Joe and Dennis Fisher guide you through every step of the process from setting up your first hop trellis to planting and caring for your herbs harvesting and drying them malting grain and brewing more than 25 recipes specifically designed for homegrown
