Handbook of Evidence-Based Therapies for Children and Adolescents Ric G. Steele, T. David Elkin, Michael C. Roberts, 2007-12-03

Growing numbers of young people, some 10% to 20% of school-age populations, have mental health problems requiring intervention, and current policy initiatives identify evidence-based therapies as the most effective and relevant forms of treatment. By reviewing evidence-based treatments (EBTs) across a wide spectrum of conditions, the *Handbook of Evidence-Based Therapies for Children and Adolescents* Bridging Science and Practice closes the gaps between children's needs and services as well as those between research, training, and practice. Several EBT options, both proved and promising, are offered for each covered disorder and are bolstered by case examples, tables, and reference lists. Features include chapters on implementation issues such as diversity, family treatment, assessment strategies, and community settings, and step-by-step guidance for the researcher looking to gather empirical support for

therapies With comprehensive coverage provided by numerous leading experts in the field this volume covers the broadest range of disorders over the widest pediatric adolescent age range including Behavioral disorders ADHD aggression bullying Phobias panic disorders school refusal and anxiety Autism and pervasive developmental disorders Depression mood disorders and suicidal behavior Alcohol and drug abuse Eating disorders and obesity PTSD With its emphasis on flexibility and attention to emerging issues the Handbook of Evidence Based Therapies for Children and Adolescents is essential reading for anyone who works to address the mental health needs of children including clinical child school and counseling psychologists clinical social workers and child psychiatrists as well as advanced graduate level students in these and other related fields

The Management of Children with Emotional and Behavioural Difficulties Ved Varma,2015-06-18 The management of children with emotional and behavioural difficulties has always been a source of worry and concern to those who have to deal with them Many such children are unpredictable sometimes embarrassing and can often make us feel helpless We need to know more about them and why they think feel and behave as they do Originally published in 1990 the contributors to this volume bring a wide ranging professional practical approach to the problem looking at it from the perspectives of psychiatry psychology psychotherapy education and social work They underline the fact that such behaviour cannot be assessed in isolation from the context in which it occurs and go beyond a mere description of maladjusted children to ask Maladjusted to what And under what conditions The social and family context is continually borne in mind The book will still be of great interest to psychologists psychiatrists psychotherapists teachers and social workers as well as to students in those disciplines who will find it an invaluable source

to help them in their first encounters with child patients clients and pupils

Cultural Competence In Assessment And Intervention With Ethnic Minorities: Some Perspectives From Psychology, Social Work and Education Robert G. Malgady, 2011 Without a thorough understanding of culture and its nuances on part of the mental health service providers alienation stigma and culturally based impediments rule While concerns for diversity have been raised on numerous occasions with increasing frequency over the past four decades little progress has been made in implementing such concerns in clinical practice Over two thirds of Americans receive treatment for depression anxiety substance abuse and related disorders Comorbidity is rarely diagnosed These trends are greatly exacerbated among members of ethnic cultural and linguistic minority groups the authors contributing to this volume share their clinical acumen and experiences rooted in their evidence based research Their purpose is to bring issues attending assessment and treatment of ethnic minority clientele closer to the fore Some of the leading authors on the topic in psychology and social work present their well earned clinical and research experiences in this volume Case studies are presented which are instructive and intriguing bringing together the richness of a multidisciplinary approach to the topic
