[The Place of Work in African Childhoods](#) Bourdillon, Michael, Mutambwa, Georges M., 2015-10-19 This book is about how work enters and affects the lives of children in Africa taking for granted neither the traditional values surrounding children's work nor the international standards against it Many African societies nurture their children on the ingrained notion that children must work as part of their process of growing up Children participate in their families and communities through the work they do

in the house and in whatever else their families do. Such views are however antithetical to the dominant views in Europe and North America which see childhood as a time of freedom from responsibility and economic activity. These views have become so popular with the elites in other countries to the extent that they now drive international campaigns against child labour and have been incorporated into what are now considered universal international standards and conventions. This book was conceived within the framework of the CODESRIA tradition of taking African perspectives seriously and not allowing social research in Africa to become subservient to values from outside. African scholars remain keenly aware of the need not to isolate themselves from developments in the wider world which could lead to stagnation. This book through empirical observation of the lives of African children, the work they do, its place in their lives and what the children say about it, proposes new perspectives towards a new understanding of this complex stage of human development. Work is not simply about the right to income; work provides identity and status in society and participation in the community. People relate to one another through work. Those who do not work are often without status and are at the periphery of society. One of the major ways in which this book differs from most of the available literature is in the understanding it brings to the problem of child labour. There are economic reasons why children may need an income of their own. There is the demographic fact that the proportion of children to adults in low income countries is nearly double that in high income societies. This book attempts to demonstrate that work is both necessary and beneficial in terms of a child's development to become a full responsible and respectable member of society.

Regards croisés Nord-Sud sur le développement durable Arnaud Diemer, Christel Marquat, 2015-05-28. Si le développement durable fait aujourd'hui partie de notre vocabulaire, c'est en partie parce qu'il nous interpelle en de nombreux endroits de la planète. Personne ne chappe au réchauffement climatique; chacun peut constater une disparition de la biodiversité et personne ne peut rester insensible aux conséquences sociales de la pauvreté et du chômage. Cet ouvrage est le fruit de recherches et de programmes d'actions menés dans les pays du Nord et du Sud. La première partie interroge nos représentations du développement durable profondément ancrées dans la culture et les choix technologiques occidentaux. Dans un tel contexte imaginer une société où le vivre ensemble pourrait s'enrichir de nos différences et tendre à inclure de nombreux modèles n'est pas une utopie mais bien un défi relever. La deuxième partie nous invite à réfléchir sur nos engagements et nos actions collectives afin d'internaliser les problématiques du développement durable et le rendre plus opérationnel: agriculture durable, gouvernance territoriale. Enfin la troisième partie précise que les changements de comportements attendus doivent reposer sur une éducation au développement durable. Il s'agit ici de promouvoir une citoyenneté reposant sur des devoirs et des obligations. L'action, la volonté, la réflexivité deviennent des compétences et c'est cette condition que nous parviendrons prendre en mains notre avenir. Cet ouvrage interressera les étudiants et enseignants en sciences de l'éducation, sciences économiques et sociales, sciences de la vie et de la terre et plus généralement toute personne concernée par le développement durable et l'avenir de la planète. II donne la parole des chercheurs des pays du Nord et du

La Question de la justice de proximité au Congo Jean-Pierre Mboto, 2015-07-16 Quel type de juridiction de proximité peut-on instituer au Congo pour satisfaire aux besoins de justice de la population Un regard croisé sur les systèmes juridictionnels congolais et français peut-il produire un effet de mixage capable de rapprocher la justice congolaise de ses usagers Cette étude adopte une approche de métissage du droit coutumier du droit moderne et des structures parallèles de règlement des conflits fonctionnant dans un système de foisonnement pluriel et multiforme Abolies par une loi de 2013 les tribunaux de police et les tribunaux coutumiers jouaient un rôle majeur dans la justice de proximité en RDC De la mise en parallèle des systèmes congolais et français une enquête de terrain aussi bien auprès des juridictions françaises de proximité qu'auprès des tribunaux de paix de Kinshasa cette étude permet de comprendre la complexité du système juridictionnel de proximité
