935 Lies Charles Lewis,2014-06-24 Facts are and must be the coin of the realm in a democracy for government of the people by the people and for the people requires and assumes to some extent an informed citizenry Unfortunately for citizens in the United States and throughout the world distinguishing between fact and fiction has always been a formidable challenge often with real life and death consequences But now it is more difficult and confusing than ever The Internet Age makes comment indistinguishable from fact and erodes authority It is liberating but annihilating at the same time For those wielding power whether in the private or the public sector the increasingly sophisticated control of information is regarded as utterly essential to achieving success Internal information is severely limited including calendars memoranda phone logs and emails History is sculpted by its absence Often those in power strictly control the flow of information corroding and corrupting its content of course using newspapers radio television and other mass means of communication to carefully consolidate their authority and cover their crimes in a thick veneer of fervent racialism or nationalism And always with the specter of some kind of imminent public threat what Hannah Arendt called objective enemies An epiphanic public comment about the Bush war on terror years was made by an unidentified White House official revealing how information is managed and how the news media and the public itself are regarded by those in power You journalists live in what we call the reality based community But that s not the way the world really works anymore We re an empire now and when we act we create our own reality we re history s actors and you all of you will be left to just study what we do And yet as aggressive as the Republican Bush administration was in attempting to define reality the subsequent Democratic Obama administration may be more so Into the battle for truth steps Charles Lewis a pioneer of journalistic objectivity His book looks at the various ways in which truth can be manipulated and distorted by governments corporations even lone individuals He shows how truth is often distorted or diminished by delay truth in time can save terrible erroneous choices In part a history of communication in America a cri de coeur for the principles and practice of objective reporting and a journey into several notably labyrinths of deception 935 Lies is a valorous search for honesty in an age of casual sometimes malevolent distortion of the facts

The Hidden Victims Cormac Ó Gráda,2024-09-03 A staggering new account of the civilian death toll of the world wars and what it reveals about the true nature and cost of modern war Soldiers have never been the only casualties of wars But the armies that fought World Wars I and II killed far more civilians than soldiers as they countenanced or deliberately inflicted civilian deaths on a mass scale By one reputable

estimate 9 7 million civilians and 9 million combatants died in World War I while World War II killed 25 5 million civilians and 15 million combatants But in *The Hidden Victims* Cormac Gr da argues that even these shocking numbers are almost certainly too low Carefully evaluating all the evidence available he estimates that the wars cost not 35 million but some 65 million civilian lives nearly two thirds of the 100 million total killed Indeed he shows that war induced famines alone may have killed 30 million people making them the single largest cause of death *The Hidden Victims* is the first book to attempt to measure and describe the full scale of civilian deaths during the world wars from all causes including genocide starvation aerial bombardment and disease While nations went to great lengths to record military casualties they often didn t count or deliberately obscured civilian deaths Getting the numbers right is important It reveals much about the true human costs of the wars the nature of modern warfare and the failure of efforts to stop civilian casualties It also makes it possible to argue with those who try to deny minimize or exaggerate wartime savagery **Whistleblower & Never Say Die** Tess
