Who Am I? Miguel Angel Gonzalez-Torres, 2024-10-17 Identity as a concept does not appear in psychoanalysis until the work of Erik Erikson in the 1950s but today it is considered a key factor in understanding individuals and groups It is a concept of enormous complexity encompassing biological aspects internalised object representations that determine the inner world of the subject and relational aspects in the real world Answering the question Who am I really is a task that can span a lifetime Constructing one's own identity involves social cognitive rational and unconscious processes These elements underpin the answer to this question and its corollary What is my value As we move from looking at individuals in isolation to looking at groups we are also confronted with processes of identity construction and repair this time group identities through

movements in which sexuality and its expression in the group play a major role This volume begins by exploring how issues of identity underlie many of the phenomena that attract our attention today both as clinicians and as citizens It opens with social and political phenomena such as nationalism where identity issues are most evident and then looks at individual nations such as Spain and their difficulty in maintaining a valuable identity shared by its citizens This is followed by an analysis of some aspects of social violence and the response to it electoral processes and the manipulation of citizens and also the impact on personal and group identity of the contemporary dynamics in large corporations where double speak and the infantilisation of employees have become commonplace In the second part Miguel Angel Gonzalez Torres reflects on how we can understand the sexual functioning of individuals and groups from an identity perspective emphasising the role of female sexuality as a sentinel element that signals deep group identity dynamics Gender identities and the social response to new proposals and attitudes in this area the contrast between desire and submission and the under explored complexity of the father's role in the contemporary family unit also require a look at the role of individual and collective identity Finally the focus is on artistic creation Mythical authors and mythical works always have an impact on personal and even social identity Many cinematographic works presuppose that the authors are searching for an answer to the question of identity who am I Or rather who are we The book concludes with a reflection on the reparative effect that the urban landscape can have on citizens through buildings and urban plans that relate to people and respond to their desires both conscious and unconscious The book proposes a journey through these three main areas reflecting on the importance of the construction and repair of individual and collective identity in our lives as social beings in our attitudes to sexuality and desire and in our dual role as creators and viewers of art It is the perfect book for curious minds

Who am I? Bernd Wannenwetsch, 2011-11-03 It has often been noted that poetry is a particularly suitable medium when it comes to understanding the connection between theology and biography Needless to say that this is particularly exciting in the case of Dietrich Bonhoeffer and the poems he wrote during his imprisonment by the Nazis Although any one of his ten poems should be read within their respective historical and biographical context they are also rounded self sufficient pieces of work that cannot be explained by the biographical and theological prose that surrounds them They rather serve as a sort of creative and perhaps sometimes even critical interlocutor to these contexts This is why the contributors to this volume have not been asked to explain the poems but to facilitate this conversation the conversation between the reader and the poems between the individual poems as well as between the poems and Bonhoeffer's life and his theology These poems lend themselves ideally as an entry point into Bonhoeffer's theology in that each one of them resonates with a particular central theological concept that Bonhoeffer was developing in his prison years Themes and concepts such as friendship religion identity freedom representative action and others are not only represented in these poems but often expressed in the dense and compelling fashion that only poetic language affords As such they deserve the thorough and imaginative engagement of the international line up of first class

theological authors gathered in this book **Who Am I? Who Is She?** Gerard P. Montague, 2013-05-02 Are persons physical things members of the species homo sapiens which exist solely in materialist form continuous in structure with other living things Or is the issue a more complex one are there more dimensions to being a person than mere physical biological existence These are matters of interest and discussion in many fields of study in this age of individuality In this wide ranging essay the author addresses various aspects of the issue including the history of self and identity The ancient tradition of dualism is rejected in favour of a straightforward holistic and naturalistic account of selfhood it is argued that the mind arises in an emergent sense from the body and personal identity is best expressed in terms of a self reflective and meaningful narrative The approach is principally from an analytic philosophy point of view but also takes on board psychological and sociological aspects of self and identity *A Study of Suicide in Rural China* Yanwu Liu, 2023-03-03 This book identifies and analyzes the significant regional differences in suicide rates of various age groups and different sexes among Chinese rural residents It goes beyond the analytic dichotomy in traditional Western suicide studies and argues that the phenomena of suicide among Chinese farmers are the result of a combination of social structure and social action rather than being determined by either of these two factors alone This study analyses suicide rates among young married women in rural areas as well as those of elderly people in rural areas The responsive trend for the near future is also projected The underlying dynamics and causal mechanisms of these phenomena are carefully analyzed using an innovative structure action theory framework **The Social Cancer: A Complete English Version of Noli Me Tangere** José Rizal, 2023-11-16 In *The Social Cancer* A Complete English Version of *Noli Me Tangere* Jos Rizal presents a scathingly critical portrayal of Philippine society under Spanish colonial rule The narrative unfolds through the experiences of Crisostomo Ibarra a young Filipino who returns from Europe only to confront the pervasive corruption injustice and social inequities plaguing his homeland Rizal employs a rich tapestry of characters and vivid imagery blending realism with romanticism to expose the systemic issues facing the Philippines The novel is not merely a story of personal turmoil but a profound social commentary that reflects the urgent need for reform and the fight against oppression situating itself within the broader narrative of 19th century nationalism and reformist literature Jos Rizal a physician writer and fervent advocate for Filipino rights was deeply influenced by his experiences abroad and the injustices faced by his fellow countrymen Having witnessed the oppressive conditions of colonial life Rizal sought to awaken a sense of national identity among Filipinos His exposure to Enlightenment thought and European liberalism profoundly shaped his vision of a free and egalitarian society which he passionately articulated through his writings making him a pivotal figure in the Philippine reform movement This seminal work is essential reading for anyone seeking to understand the historical context and revolutionary ideas that shaped the Philippines Rizal s eloquence and moral conviction resonate deeply offering modern readers valuable lessons on social justice identity and the enduring power of literature to inspire change In an era where such themes remain pertinent *The Social Cancer* stands as a timeless call to
