Settles,2005-10-24 As a writer I mainly focus on relationships All the perils concerned with becoming involved in and maintaining a relationship with the opposite sex As women are emotional creatures they sometimes feel that they must have an emotional relationship before beginning a sexual relationship While men are usually more visual

and physical by nature They are turned on by physical contact and visual stimuli but women need so much more than that Women need emotional and spiritual nurturing while men tend to lack understanding in that area of women's needs When the two come together this tremendous lack of understanding causes an abundance of pain and heartache Women are left feeling underappreciated neglected and unloved Men on the other hand usually don't understand what the problem is in the relationship We often assume they will not understand there is also a gap in communication which furthers the stress we feel As a writer I attempt to explain this pain and heartache that women so often go through because of these misunderstandings But in the end we MUST eventually turn to a real relationship with God in order to reach the fullest potential that life has to offer

COPS DIE (And How to Prevent It) Gerald W. Garner, 2017-10-30 This book provides time and experience proven advice for responding safely and effectively to threats to a law enforcement officer's safety. It relies on law enforcement's bloody history to reveal what has gone wrong for a very long time and how to fix it so that no more cops die needlessly. This book identifies the cop killers and the fatal errors that cops make and it explores how these incidents happen and why. Most important of all, the book goes into detail about how to prevent these terminal errors and furnishes to the point advice for avoiding them. These tactics and techniques work. It offers the same common sense advice that solid patrol sergeants have been sharing with their briefing room charges for a long while. It has been assembled by a police chief who spent 15 years as a sergeant. WHY COPS DIE can be used in a lot of ways, all of them useful for drastically reducing the number of officers who die on the job every year. It should be issued to every law enforcement academy recruit. It is aimed across the spectrum of the law enforcement organization from the rookie to the first line supervisor to the command staff. Chiefs and sheriffs will find it of value as will those directly responsible for the training of law enforcement officers. By applying practical, potentially lifesaving advice to their daily duties, law enforcement's first line practitioners can sharply reduce the number of peacekeepers who die or are maimed in the future. That effort begins here.
