Redefining Education and Development Kaitano Dube,2024-10-18 The book aligns with the United Nations Sustainable Development Goals SDGs particularly Goal 4 which focuses on quality education It explores the evolving role of education as a critical driver for achieving all 17 SDGs by providing a platform for discussing innovative educational models and theories that foster sustainable development The book takes an interdisciplinary approach merging educational theory developmental practice and human psychology to address complex global challenges hindering sustainable development The book includes case studies and empirical research such as exploring student entrepreneurship in the agricultural sector and the factors bridging the gap between entrepreneurial intention and venture creation These examples provide readers with practical applications of theoretical concepts and demonstrate the real world impact of educational innovations which is at the core of education delivery for all and how education touches on other areas of the SDGs The book offers valuable insights for policymakers educators and development practitioners by presenting research and theory based analyses It suggests ways to improve the academic environment to foster entrepreneurship and innovation which are key to economic development and job creation especially in regions with high youth unemployment rates The content suggests educational reforms that are responsive to the changing societal and economic landscapes The book s blend of theory and practice targets a broad audience including academic scholars students development agencies non governmental organisations and policymakers It seeks to engage these diverse readers in a conversation about the future of education and its role in achieving sustainable development In summary the book seeks to provide a comprehensive exploration of the nexus between education development and human needs in the context of the SDGs offering innovative perspectives and practical solutions to equip readers to contribute to sustainable global development

Deanship in the Global South Oliver J.J. Seale,2021-02-08 The university today is a postmodern neo liberal

competitive boundary less knowledge conglomerate a far cry from its historical traditional classical and collegial roots There is a body of literature on deanship that points to its evolving nature in the contemporary academe characterised by complexity and change Balancing academic demands simultaneously with the requirements for effective performance leadership and management lies at the heart of this very challenging bridging role nowadays Deans are generally former academics emerging from a traditional collegial space and often catapulted into the relatively unknown domain of executive management with its related problems Deans nowadays are required to be more than collegial intellectual leaders They are also meant to be fiscal and human resource experts fundraisers politicians and diplomats Deanship in the Global South Bridging Troubled Waters is about the deans lived reality as they try to balance the demands of both the academe from which they emerge and the administration to whom they now need to account Their lack of preparation and inadequate support points to the need for a more strategic integrated approach to leadership development within their critical bridging roles between the academe and administration Education and Leadership Tom Claes, Frank McMahon, David Seth Preston, 2008 This truly international book brings together authors from different regions of the world including North America South Africa Europe Iran and Russia all of whom are concerned with aspects of the challenges involved in the expansion of higher education both in student numbers and areas of study Some are concerned about the loss of guiding principles which steered university education for centuries The traditional purposes of higher education have come under such pressure that we have achieved conflicting models of the university Claes and ambiguity in regard to teaching and research Simons et al For others the problems are at a different stage Contributions from South Africa look at three challenges Can we provide enough places in higher education How do we deal with institutional mergers How do we make staff development effective in a situation in which English is the first language of less than five percent of the staff Young scholars in Russian regions face formidable hurdles in achieving academic careers while the best law graduates in Canada are faced with the ethical dilemma of personal career advancement or social justice Topsakal The problem of integrating nursing into a traditional Irish university is reviewed by Grant while the role of a university in regional development is addressed from a Greek perspective by Papaelias et al The comparative international approach features in research into teacher job satisfaction in India and Iran while McMahon reviews the impact of the Bologna Process **The A to Z of Careers in South Africa** ,2006 **The Food and Financial Crises in Sub-Saharan Africa Origins, Impacts and Policy Implications** M. B. Ndulo, 2011 Dramatic increases in food prices as witnessed on a global scale in recent years threaten the food security of hundreds of millions of the rural poor in Sub Saharan Africa alone This book focuses on recent food and financial crises as they have affected Africa illustrating the problems using country case studies that cover their origins effects on agriculture and rural poverty their underlying factors and making recommendations as to how such crises could best be addressed in the future *Theorising Curriculum in Unsettling Times in African Higher Education* Kehdinga George Fomunyam, 2023-12-15 Curriculum and all its

discourses constitute the heart of education and all its paraphernalia and largely informs the happenings in higher education or universities As a result of the importance of curriculum all scholars in the field of education in general claim or appear to claim expertise in all things curriculum and how the field should unfold These struggles in the field of curriculum studies are made more complex by the unstable times the world as a whole and higher education in particular is currently facing The world in general and higher education in particular is currently dealing with and striving to readjust to the new normal and abnormalities created by the Coronavirus disease 2019 COVID 19 pandemic the calls for decolonisation the Fourth Industrial Revolution 4IR and other contextual crises in different nations across the African continent This book takes on all things curriculum in higher education placing them within the context of time and circumstances so as to articulate a way forward for the field in this unsettling times
