Normal People Andrew Yang,2018-04-03 The New York Times bestseller from CNN Political Commentator and 2020 former

Democratic presidential candidate Andrew Yang this thought provoking and prescient call to action outlines the urgent steps

America must take including Universal Basic Income UBI to stabilize our economy amid rapid technological change and

automation The shift toward automation is about to create a tsunami of unemployment Not in the distant future now One recent estimate predicts 45 million American workers will lose their jobs within the next twelve years jobs that won't be replaced In a future marked by restlessness and chronic unemployment what will happen to American society In *The War on Normal People* Andrew Yang paints a dire portrait of the American economy Rapidly advancing technologies like artificial intelligence robotics and automation software are making millions of Americans' livelihoods irrelevant The consequences of these trends are already being felt across our communities in the form of political unrest drug use and other social ills The future looks dire but is it unavoidable In *The War on Normal People* Yang imagines a different future one in which having a job is distinct from the capacity to prosper and seek fulfillment At this vision's core is Universal Basic Income the concept of providing all citizens with a guaranteed income and one that is rapidly gaining popularity among forward-thinking politicians and economists Yang proposes that UBI is an essential step toward a new more durable kind of economy one he calls human capitalism
