sentences to answer questions such as What is the brand message or What is the USP This tendency to perpetually condense and simplify is a carry over from a long gone era when products and services remained static and changes in platforms happened much more slowly Today however the reality is that brands are infinitely more complex and span territories consumer groups and categories Therefore to boil a branding message down into a single sentence or USP severely limits a brand s potential scope After all a brand is like a person and a person could never be accurately described in a single sentence The Marketing Complex examines the current obsession with over simplification and fearlessly challenges marketers to consider whether they are blurring the line between simplifying and simplistic By exploring the origins and appeal of simplification through some of the best known literature the book conclusively proves that endless simplification actually only serves to limit a brand s appeal By presenting a visionary new model supported by examples tools and expertly explained techniques The Marketing Complex will enable marketers to recognise the important role that depth and multiplicity play in communicating a brand message and to boldly embrace complexity when crafting their brands
