Best Practices Are Stupid Stephen M. Shapiro, 2011-09-29 What if almost everything you know about creating a culture of innovation is wrong What if the way you are measuring innovation is choking it What if your market research is asking all of the wrong questions It s time to innovate the way you innovate Stephen Shapiro is one of America s foremost innovation advisers whose methods have helped organizations like Staples GE Telef nica NASA the U S Air Force and USAA He teaches his clients that innovation isn t just about generating occasional new ideas it s about staying consistently one step ahead of the competition Hire people you don t like Bring in the right mix of people to unleash your team s full potential Asking for ideas is a bad idea Define challenges more clearly If you ask better questions you will get better answers Don t think outside the box find a better box Instead of giving your employees a blank slate provide them with well defined parameters that will increase their creative output Failure is always an option Looking at innovation as a series of experiments allows you to redefine failure and learn from your results Shapiro shows that nonstop innovation is attainable and vital to building a high performing team improving the bottom line and staying ahead of the pack
