committed to building a more inclusive and transformative education system **Zimbabwe** Brian Raftopoulos, Tyrone Savage, 2004 The author is from the Institute of Development Studies at the University of Zimbabwe He examines the paradox ensuing from the Lancaster House Settlement at Zimbabwe's independence that whilst colonial rule was ended the framework was provided for continued white privilege on the basis of control of the economy by this elite and through them transnational capital He analyses the responses of the ruling including official elite the black petty bourgeoisie and the group associated with the former Rhodesian Front *Curriculum Theory, Curriculum Theorising, and the Theoriser*, 2020-12-29 Curriculum studies is at the core of the educational endeavour and informs what happens in every educational institution As a result of its criticality or primacy every educational practitioner appears to claim expertise in curriculum matters and what direction the field should take In Africa the curriculum practitioner has been given little or no space to theorise and orient the future of the field in Africa Instead European and American curriculum theorists have been allowed to exert a marked influence on the nature and direction of African theoretical and philosophical underpinnings This situation raises fundamental questions about the future of education in Africa and this volume explores and answers these questions relating to curriculum theory theorising and the theoriser by breaking traditions and experimenting on alternative approaches and pathways Contributors are Aruna Ankiah Gangadeen Lynn Biggs Eunice Champion Taryn Isaacs De Vega Kehdinga George Fomunyam Nadaraj Govender Angela James Simon Bheki Khoza Noma China Kubashe Nehemiah Latolla Jacqui L ck Dumisa Celumusa Mabuza Simeon Maile Suriamurthee Maistry Makhulu A Makumane Zvisinei Moyo Cedric Bheki Mpungose Pascal Nadal Blanche Ntombizodwa Ndlovu Christopher Ndlovu Emily Mangwaya Ndlovu Nellie Ngcongco James Deirdre Pratt Mukhtar Raban Nolundi Radana Makhosazana Edith Shoba Mahlapahlapana Themane Molaodi Tshelane and Denise Zinn

Zimbabwe National Bibliography, 1990 **Festschrift Rufus H. Gouws** Willem Botha, Paul Mavoungou, Dion Nkomo, 2013-06-01 The range of languages covered by the lexicographic investigations reported on e.g. Afrikaans English Northern Sotho Yilumbu Fang French and Dutch is a clear indication of the wide ranging influence of Rufus Gouws to whom the work is dedicated *Occasional Papers*, 1993 **Decolonisation, Africanisation and the Philosophy Curriculum** Edwin Etieyibo, 2019-10-23 This book appropriately titled Decolonisation Africanisation and the Philosophy Curriculum signposts and captures issues about philosophy the philosophy curriculum and its decolonisation and Africanisation This topic is of critical importance at present for the discipline of philosophy not the least because philosophy and the current philosophical canons are perceived to be improvised by virtue of their historical marginalisation and exclusion of other valuable and important philosophical traditions and perspectives The continued marginalisation and exclusion of one such philosophical tradition and perspective i.e. African philosophy connects to issues of space contestations and raise questions of justice The chapters in this book engage with all of these issues and they also attempt to make sense of what it will mean for philosophy and the philosophy curriculum to be decolonised and Africanised how to go about achieving this task and what

the challenges and problems are that confront efforts to decolonise and Africanise the philosophy curriculum Furthermore the contributors initiate discussions on the value and importance of non western philosophical traditions and perspectives and by so doing challenge the dormant and triumphant narrative and hegemony of Western philosophy as well as the centrality accorded to it in philosophical discourse The chapters in this book were originally published as articles in the South African Journal of Philosophy *Common Core Curriculum: World History, Grades K-2* Great Minds,2014-03-11 Comprehensive Common Core curriculum for World History Grades K 2 The Alexandria Plan is Common Core s curriculum tool for the teaching of United States and World History It is a strategic framework for identifying and using high quality informational texts and narrative nonfiction to meet the expectations of the Common Core State Standards CCSS for English Language Arts ELA while also sharing essential historical knowledge drawn from the very best state history and civics standards from around the country The curriculum is presented in this four volume series Common Core Curriculum United States History Grades K 2 Common Core Curriculum World History Grades K 2 Common Core Curriculum United States History Grades 3 5 and Common Core Curriculum World History Grades 3 5 Features of each book include Learning Expectations which articulate the key ideas events facts and figures to be understood by students in a particular grade span Suggested anchor texts for each topic In depth text studies comprised of text dependent questions student responses and assessments based on a featured anchor text Select additional resources Concise Era Summaries that orient both teachers and students to the historical background The curriculum helps teachers pose questions about texts covering a wide range of topics This volume Common Core Curriculum World History Grades K 2 introduces lower elementary students to 18 key eras in world history from the discovery of fire to modern globalization through stories that they will treasure forever

Decolonizing the English Literary Curriculum Ato Quayson,Ankhi Mukherjee,2023-11-09 George Floyd s death on May 25th 2020 marked a watershed in reactions to anti Black racism in the United States and elsewhere Intense demonstrations around the world followed Within literary studies the demonstrations accelerated the scrutiny of the literary curriculum the need to diversify the curriculum and the need to incorporate more Black writers Decolonizing the English Literary Curriculum is a major collection that aims to address these issues from a global perspective An international team of leading scholars illustrate the necessity and advantages of reform from specific decolonial perspectives with evidence based arguments from classroom contexts as well as establishing new critical agendas The significance of Decolonizing the English Literary Curriculum lies in the complete overhaul it proposes for the study of English literature It reconnects English studies the humanities and the modern international university to issues of racial and social justice This book is also available as Open Access on Cambridge Core **Trends in Language Syllabus Design** John A. S. Read,1984 The Social and Political History of Southern Africa's Languages Tomasz Kamusella,Finex Ndhlovu,2017-11-21 This book is the first to offer an interdisciplinary and comprehensive reference work on the often marginalised languages of southern Africa The authors

analyse a range of different concepts and questions including language and sociality social and political history multilingual government and educational policies In doing so they present significant original research ensuring that the work will remain a key reference point for the subject This ambitious and wide ranging edited collection will appeal to students and scholars of southern African languages sociolinguistics history and politics Cultures of Change in Contemporary Zimbabwe Oliver Nyambi,Tendai Mangena,Gibson Ncube,2021-11-04 This book investigates how culture reflects change in Zimbabwe focusing predominantly on Mnangagwa s 2017 coup but also uncovering deeper roots for how renewal and transition are conceived in the country Since Emmerson Mnangagwa ousted Robert Mugabe in 2017 he has been keen to define his Second Republic or New Dispensation with a rhetoric of change and a rejection of past political and economic cultures This multi and interdisciplinary volume looks to the social media language discourse theatre images political speeches and literary fiction and non fiction to see how they have reflected on this time of unprecedented upheaval The book argues that themes of self renewal stretch right back to the formative years of the ZANU PF and that despite the longevity of Mugabe s tenure the latest transition can be seen as part of a complex and protracted layering of postcolonial social economic and political changes Providing an innovative investigation of how political change in Zimbabwe is reflected on in cultural texts and products this book will be of interest to researchers across African history literature politics culture and post colonial studies
