Zimsec June 2business Studies Exam Paper:

The Silence of Great Zimbabwe Joost Fontein, 2016-06-03 This book examines the politics of landscape and heritage by focusing on the example of Great Zimbabwe National Monument in southern Zimbabwe The controversy that surrounded the site in the early part of the 20th century between colonial antiquarians and professional archaeologists is well reported in the published literature Based on long term ethnographic field work around Great Zimbabwe as well as archival research in NMMZ in the National Archives of Zimbabwe and several months of research at the World Heritage Centre in Paris this new book represents an important step beyond that controversy over origins to focus on the site s position in local contests between and among individuals within the Nemanwa Charumbira and Mugabe clans over land power and authority To justify their claims chiefs spirit mediums and elders of each clan make appeals to different but related constructions of the past Emphasising the disappearance of the Voice that used to speak there these narratives also describe the destruction alienation and desecration of Great Zimbabwe that occurred and continues through the international and national archaeological and heritage processes and practices by which Great Zimbabwe has become a national and world heritage site today

Zimbabwe in Transition Timothy Murithi, Aquilina Mawadza, 2011 Zimbabwe s Transition to Democracy in the post independence era has been a very difficult one To date there have been a number of sustained efforts by various local regional and international actors to move Zimbabwe towards democracy as well as attempts to find a lasting solution to the political and economic crises that seriously affected the country s progress from the late 1990s However these attempts have been less successful mainly because Zimbabwe has complex political and economic problems with interlocking national regional and international political and economic dimensions rooted in both historical and contemporary factors and developments To understand the complexities of the challenges to Zimbabwe s transition to democracy as well as prospects for political change and democracy in the country Zimbabwe in Transition critically examines both the historical and contemporary dynamics shaping political and economic developments in the country taking into account voices from a broad spectrum of Zimbabwean society including civil society faith based communities the diaspora women community leaders the media youth and regional actors such as SADC and the AU Book jacket

Innovation, Regional Integration, and Development in

Africa Samuel Ojo Oloruntoba, Mammo Muchie, 2018-07-26 This edited volume discusses the role of innovation and regional

integration in economic development in Africa Over the past five decades post colonial African countries have struggled to break loose from the trap of poverty and underdevelopment through the adoption of various development strategies at regional national and continental levels However the results of both national and regional efforts at advancing development on the continent have been mixed Although the importance of agglomeration and fusion of institutions have long been recognized as possible path to achieving economic development in Africa the approach to regionalism has been unduly focused on market integration while neglecting other dimensions such as social policy mobility of labor educational policy biotechnology regional legislation manufacturing innovation and science and technology This volume investigates the link between innovation regional integration and development in Africa arguing that the immediate and long term development of Africa lies not just in the structural transformation of its economies but in the advancement of scientific and innovation capacities The book is divided into four parts Part I addresses the theoretical and conceptual underpinnings of innovation and regional integration in Africa Part II presents case studies which examine how regional economic institutions are fostering innovation in Africa Part III of the book deals with sectoral issues on innovation and integrated development in Africa Part IV sets the future research on innovation regional integration and development in Africa Combining theoretical analysis and a comparative interdisciplinary approach this volume is appropriate for researchers and students interested in economic development political economy African studies international relations agricultural science and geography as well as policymakers in regional economic communities and the African Union

The African Conundrum Mawere, MunyaRadzi, Mubaya, Tapuwa R., 2017-05-22 The African conundrum is rooted out of the historical philosophical and cultural bastardisation imbalances and inequalities which many post colonial African governments have always sought to address though with varying degrees of success since the 1960s Lamentably this African conundrum is rarely examined in a systematic manner that takes into account the geopolitical milieu of the continent past and present This volume seeks to interrogate and examine the extent of the impact of the geopolitical seesaw which seems poised to tip in favour of the Global North The book grapples with the question on how Africa can wake up from its cavernous intellectual slumber to break away from both material and psychological dependency and achieve a transformative political and socio economic self reinvention and self assertion While the African conundrum is largely a result of historic oppression and a resilient colonial legacy this book urges Africans to rethink their condition in a manner that makes Africa responsible and accountable for its own destiny The book argues that it is through this rethinking that Africa can successfully transcend the logic of post imperial dependency

Zimbabwe's Plunge Patrick Bond, Masimba Manyanya, 2002 A biography of the man who became a civil rights activist political prisoner and president of South Africa

Moll,1990 **The Future of Zimbabwe's Agrarian Sector** Grasian Mkodzongi,2022-06-24 This volume reflects on the recent political developments in Zimbabwe and their current and future impact on the agrarian sector Utilising new empirical data gathered across Zimbabwe the contributors shed light on the liberalisation of agricultural policy after Mugabe Chapters examine how the adoption of neo liberal orthodoxy in agrarian policy making will affect the new agrarian structure looking at issues such as productivity the impact on vulnerable groups changing land tenure arrangements joint ventures and land grabbing Providing a new way of conceptualising Zimbabwe s agrarian futures this book will be of interest to researchers NGOs and policymakers interested in the politics of land and agriculture in Zimbabwe and southern Africa British Books ,1914
