

Many constitutional and civic issues have been debated throughout United States history by politicians, Americans, and historians. One of these issues is the role of the government in the economy. This debate has run the gamut from die hard supporters of mercantilism in the 1600s to supporters of laissez faire capitalism in the 1800s. The issue has pitted two presidents—Herbert Hoover and Franklin Delano Roosevelt against each other—as they debated how to handle the economic crisis of the Great Depression. While some deemed the interventions by the government, including the New Deal and rugged individualism, successful, others thought they were ineffective or misguided.

The 1920s, deemed as the “Roaring 20s”, was a decade in the United States where the economy had flourished. As the nation’s economy boomed and skyrocketed, the gap between the rich and poor was rapidly expanding. Not everyone was rewarded for the growing economic prosperity as there was an unequal distribution of wealth in society. In 1929, it was widely believed that American families that had incomes under \$2,500 were the minimum standard for decent living, yet 36,000 of the wealthiest families seemed to have earned just as much (Doc 1). The economic disparity allowed the wealthy 1% to dominate the hierarchy, leaving everyone else with little to no opportunity to make money. The country’s GDP shrunk by 30% in a short span of time, thus creating an unstable economy.

Credit was a fairly new concept that Americans did not understand how it would drastically impact them. People who could not afford to pay for radios, refrigerators, cars, and other expensive goods began purchasing stocks by buying on the margin. Americans were reckless, hoping that it would gain more value in the near future and with the growing speculation, the stock market prices were left much higher than their actual value. Thus, on Black Tuesday, the stock market crashed and the rate of consumer debt escalated. Thousands of people made bank runs to withdraw their deposits, but American banks were failing as there was no more money to lend or loan. Consequently, after the stock market crash, from just below 5% to almost 25%, the unemployment rates in the labor force skyrocketed (Doc 3A). People were left jobless and in poverty. Factories were producing more goods than they could sell causing an overproduction of consumer goods with low demands in the manufacturing industry. Businesses began losing money whilst banks went bankrupt and unemployment rates continued to climb. The Great Depression marked the end of jazz and booze from the Roaring 20s with various efforts to be made by the government.

The American economic crisis was the beginning of President Herbert Hoover presidency in 1929. Hoover sought to reassure the American people that this prevailing issue would come to an end, but as the economy plummeted, he faced the soaring unemployment and suicide rates,

The Oxford History of Protestant Dissenting Traditions, Volume V Mark P. Hutchinson, 2018-10-17 The five volume *Oxford History of Protestant Dissenting Traditions* series is governed by a motif of migration out of England It first traces organized church traditions that arose in Britain and Ireland as Dissenters distanced

themselves from a state church defined by diocesan episcopacy the Book of Common Prayer the Thirty Nine Articles and Royal Supremacy but then follows those traditions as they spread beyond Britain and Ireland and also analyses newer traditions that emerged downstream in other parts of the world from earlier forms of Dissent Secondly it does the same for the doctrines church practices stances toward state and society attitudes toward Scripture and characteristic patterns of organization that also originated in earlier British and Irish dissent but that have often defined a trajectory of influence independent of ecclesiastical organizations The Oxford History of Protestant Dissenting Traditions Volume V follows the spatial cultural and intellectual changes in dissenting identity and practice in the twentieth century as these once European traditions globalized While in Europe dissent was often against the religious state dissent in a globalizing world could redefine itself against colonialism or other secular and religious monopolies The contributors trace the encounters of dissenting Protestant traditions with modernity and globalization changing imperial politics challenges to biblical denominational and pastoral authority local cultures and languages and some of the century's major themes such as race and gender new technologies and organizational change In so doing they identify a vast array of local and globalizing illustrations which will enliven conversations about the role of religion and in particular Christianity

Churchill and the Anglo-American Special Relationship Alan P. Dobson, Steve Marsh, 2017-02-24 This book examines Winston Churchill's role in the creation and development of the Anglo American special relationship Drawing together world leading and emergent scholars this volume offers a critical celebration of Churchill's contribution to establishing the Anglo American special relationship Marking the seventieth anniversary of Churchill's pronouncement in 1946 of that special relationship in his famous Iron Curtain speech the book provides new insights into old debates by drawing upon approaches and disciplines that have hitherto been marginalised or neglected The book foregrounds agency culture values ideas and the construction and representation of special Anglo American relations past and present The volume covers two main themes Firstly it identifies key influences upon Churchill as he developed his political career especially processes and patterns of Anglo American convergence prior to and during World War Two Second it provides insights into how Churchill sought to promote a post war Anglo American special relationship how he discursively constructed it and how he has remained central to that narrative to the present day From this analysis emerges new understanding of the raw material from which Churchill conjured special UK US relations and of how his conceptualisation of that special relationship has been shaped and re shaped in the decades after 1946 This book will be of much interest to students of Anglo American relations Cold War Studies foreign policy international history and IR in general

Elizabeth Catlett Dalila Scruggs, 2024-10-04 A book highlighting the work of pioneering Black printmaker sculptor and activist

Elizabeth Catlett Accomplished printmaker and sculptor avowed feminist and lifelong activist Elizabeth Catlett 1915 2012 built a remarkable career around intersecting passions for formal rigor and social justice This book accompanying a major traveling retrospective offers a revelatory look at the artist and her nearly century long life highlighting overlooked works alongside iconic masterpieces Catlett s activism and artistic expression were deeply connected and she protested the injustices of her time throughout her life Her work in printmaking and sculpture draws on organic abstraction the modernism of the United States and Mexico and African art to center the experiences of Black and Mexican women Catlett attended Howard University studied with the painter Grant Wood joined the Harlem artistic community and worked with a leftist graphics workshop in Mexico where she lived in exile after the US accused her of communism and barred her re entry into her home country The book s essays address a range of topics including Catlett s early development as an artist activist the impact of political exile on her work her pedagogical legacy her achievement as a social realist printmaker her work with the arts community of Chicago s South Side and the diverse influences that shaped her practice Religion and Innovation Donald A. Yerxa, 2015-12-17 It is often assumed that religion is the backward looking servant of tradition and the status quo utterly opposed to the new This refrain in so much of recent polemical writing has permeated the public mind and can even be found in academic publications But recent scholarship increasingly shows that this view is a gross simplification that in fact religious beliefs and practices have contributed to significant changes in human affairs political and legal social and artistic scientific and commercial This is certainly not to say that religion is always innovative But the relationship between religion and innovation is much more complex and instructive than is generally assumed Religion and Innovation includes contributions from leading historians archaeologists and social scientists who offer findings about the relationship between religion and innovation The essays collected in this volume range from discussions of the transformative power of religion in early societies to re examinations of our notions of naturalism secularization and progress to explorations of cutting edge contemporary issues Combining scholarly rigor with clear accessible writing Religion and Innovation Antagonists or Partners is essential reading for anyone interested in the history of religion and the ongoing debates about its role in the modern world and into the future
