**CODES OF SURVIVAL** Lloyd Godman, 2023-04-17 Please note This ebook has been specifically designed as an epublication and is optimized for viewing on Thorium Reader. Thorium Reader is the free EPUB reader of choice for Windows 10 and 11, MacOS and Linux. <https://www.edrlab.org/software/thorium-reader/> If you are using a Mac, you may need to download it as a PDF and view it in Chrome. In 1984, Lloyd Godman conceived the idea of taking an expedition of artists to the remote Auckland Island, 465 kilometres south of New Zealand, to experience the wild environment, create a series of works that would tour New Zealand as a series of exhibitions. While these remote protected islands are most often the domain of scientists, Godman argued that artists are scientists; their research is on an aesthetic and conceptual level. Beset with many problems and political brick walls, the project took years to materialize, but with perseverance, in 1989, eleven artists visited the Islands in a ground-breaking and highly successful project titled Arts to the Subantarctic. Including Bill Hammond and Laurence Aberhart's Works created by the 11 selected artists were curated into an exhibition that toured art galleries and museums throughout New Zealand for over 2 years. The project was also the first time a woman sailed on a New Zealand Naval vessel. Codes of Survival is Godman's personal response and contribution to the project and his first series of work with Photograms. He incorporated sophisticated combinations of black and white photographs and photograms to create unique photographic works. The project culminated with an accompanying installation with a soundscape by Peter Adams and a series of short stories that related to events on the Subantarctic Islands. It was a watershed event where Godman moved to camera-less photography with projects like Adze to Coda, Evidence from the Religion of Technology, Aporian Emulsions, and acted as a catalyst for his interest in photosensitivity that led to his current living art works with plants.
