Abdullah,Mardziah Hayati Abdullah,Tan Bee Hoon,2009-10-02 The papers in this book explore language use in a broad range
of discourse fields They provide theoretical perspectives on global orientations to social political and economic
transformations in the New World Order NWO and extend these with studies on the impacts of such transformations at the
local national regional and global levels The discussions highlight current concerns among academics and political
commentators about the potential social impact of representations of the NWO in language and discourse The present work
is important in raising social consciousness towards the central role that language and discourse play in the construction of
shifting multiple identities In this way the roles of critical discourse analysis and indeed that of the analysts themselves are
emancipative and socially transformative The value of such consciousness raising for potential social action in language user
empowerment terms cannot be overstressed particularly given the ascendant position of the English language in the NWO
