"Cumulative Zoning" Correct Answers Separation of land uses, with industrial property at the bottom and single-family homes at the top. Any land use zone could accommodate uses above it on the pyramid, but not those below.

o single-family > multi-family > commercial > industrial

"Exclusive Zoning" Correct Answers when cumulative zoning fell by the wayside, planners created a system that permitted one - and only one - use in each zoning district. Each category was separated, which was facilitated by the automobile that created easy mobility from one zone to another.

o single-family = multi-family = commercial = industrial

"Gridiron" Correct Answers first created by William Penn Plan in Philadelphia, PA; set gridiron which set precedent; increased city efficiency; The rectangular "gridiron" pattern became commonplace because it was easy to lay out, and it facilitated subdivision and speculation of commercial and industrial growth of the city

City Beautiful (1890-1920) Correct Answers John Nolen (leading urban designers of the early 20th century); emphasized formal streetscapes oriented around local transit stops, public spaces and natural parks, purposeful-appearing civic buildings and orderly neighborhoods. Best example of City Beautiful planning is the Mall and its immediate surroundings in Washington, DC.
