

The Cold War Heats Up

1. As you read the passage, fill in the information you discover about the Soviet-American agreement below.

	What the Soviets Wanted	What the Americans Wanted
1. Would it make any sense to build space weapons and launch them?	That U.S. suspend the prohibition of launching nuclear weapons.	Not really.
2. Would anyone benefit from the launch and retrieval of satellites?	They would make great use of satellites that were sent to the Moon & return directly to the Earth.	They were worried about a loss of control over the launch of satellites that could be used to conduct espionage, planned attack and conduct of limited strategic warfare.
3. Would anyone disagree with this?	Not really.	Some people in the U.S. were not enthusiastic and also distrustful.
4. Would the launch policy make sense without testing?	Yes. The government had to demonstrate that it was capable of launching.	Yes. American people were concerned and would not take a decision until they knew.

2. Suppose the agreement simply set up the program, without

these (other) provisions. What would

the program look like? Would it be

different? Explain. What provisions do you think it

will provide? What would you think about it?
