

STANDARD GRAPHIC IDENTITY

The USAID Standard Graphic Identity (Identity) is an official U.S. Government symbol, and any alteration, distortion, re-creation, translation (other than the tagline), or misuse is strictly prohibited. The Identity includes both the logo and brandmark. It is to be used on all Agency communications. On rare occasions however, size, shape, space, or visibility may dictate the use of just the logo or brandmark on certain visual media. Guidance for the logo is shown in detail on pages 2.5-2.7 and for the brandmark on pages 2.8-2.9.

The USAID Identity is only to be arranged in the two formats—vertical and horizontal—shown on these pages. It may not appear on the same page of a document or on-screen presentation in any other arrangement. A number of digital file formats are available for download at www.usaid.gov/branding. Each of the files available is optimized for a variety of applications, for both print and on-screen communications, to ensure easy adherence to these guidelines. **Do not re-create the Identity under any circumstances.** Colors referenced below are described in detail on page 2.12 of this manual.

US Agency for International Development Handbook Volume 1 Strategic, Practical Information and Business Opportunities IBP USA, *Communicating National Image through Development and Diplomacy* James Pamment, Karin Gwinn Wilkins, 2018-05-07 This edited collection draws upon interdisciplinary research to explore new dimensions in the politics of image and aid While development communication and public diplomacy are established research fields there is little scholarship that seeks to understand how the two areas relate to one another However international development doctrine in the US UK and elsewhere increasingly suggests that they are integrated or at the very least should be at the level of national strategy This timely volume considers a variety of cases in diverse regions drawing upon a combination of theoretical and conceptual lenses that combine a focus on both aid and image The result is a text that seeks to establish a new body of knowledge on how contemporary debates into public diplomacy soft power and the national image are fundamentally changing not just the communication of aid but its wider strategies modalities and practices **Front Lines**, 2005 *Earth Observation Science and Applications for Risk Reduction and Enhanced Resilience in Hindu Kush Himalaya Region* Birendra Bajracharya, Rajesh Bahadur Thapa, Mir A. Matin, 2021-08-14 This open access book is a consolidation of lessons learnt and experiences gathered from our efforts to utilise Earth observation EO science and applications to address environmental challenges in the Hindu Kush Himalayan region It includes a complete package of knowledge on service life cycles including multi disciplinary topics and practically tested applications for the HKH It comprises 19 chapters drawing from a decade s worth of experience gleaned over the course of our implementation of SERVIR HKH a joint initiative of NASA USAID and ICIMOD to build capacity on using EO and geospatial technology for effective decision making in the region The book highlights SERVIR s approaches to the design and delivery of information services in agriculture and food security land cover and land use change and ecosystems water resources and hydro climatic disasters and weather and climate services It also touches upon multidisciplinary topics such as service planning gender integration user engagement capacity building communication and monitoring evaluation and learning We hope that this book will be a good reference document for professionals and practitioners working in remote sensing geographic information systems regional and spatial sciences climate change ecosystems and environmental analysis Furthermore we are hopeful that policymakers academics and other informed audiences working in sustainable development and evaluation beyond the wider SERVIR network and well as within it will greatly benefit from what we share here on our applications case studies and documentation across cross cutting topics **Public Diplomacy in the Middle East and South Asia** United States. Committee on Homeland Security and Governmental Affairs, 2009 **The Limits of Westernization** Perin E. Gürel, 2017-05-30 In a 2001 poll Turks ranked the United States highest when asked Which country is Turkey s best

friend in international relations When the pollsters reversed the question Which country is Turkey's number one enemy in international relations the United States came in second How did Turkey's citizens come to hold such opposing views simultaneously In *The Limits of Westernization* Perin E. Grel explains this unique split and its echoes in contemporary U.S. Turkey relations Using Turkish and English sources Grel maps the reaction of Turks to the rise of the United States as a world ordering power in the twentieth century As Turkey transitioned from an empire to a nation state the country's ruling elite projected westernization as a necessary and desirable force but also feared its cultural damage Turkish stock figures and figures of speech represented America both as a good model for selective westernization and as a dangerous source of degeneration At the same time U.S. policy makers imagined Turkey from within their own civilization templates first as the main figure of Oriental barbarism i.e. the terrible Turk then during the Cold War as good pupils of modernization theory As the Cold War transitioned to the War on Terror Turks rebelled against the new U.S. made trope of the moderate Muslim Local artifacts of westernization folk culture crossed with American cultural exports and alternate projections of modernity became tinder for both Turkish anti Americanism and resistance to state led modernization projects *The Limits of Westernization* analyzes the complex local uses of the West to explain how the United States could become both the best and the worst in the Turkish political imagination Grel traces how ideas about westernization and America have influenced national history writing and policy making as well as everyday affects and identities Foregrounding shifting tropes about and from Turkey a regional power that continues to dominate American visions for the modernization of the Middle East Grel also illuminates the transnational development of powerful political tropes from the Terrible Turk to the Islamic Terrorist

Resources in Education, 1993 **Resources in Vocational Education**, 1977 Developing Capacity for Community Governance of Natural Resources Theory & Practice Brian Child & Deborah Wojcik, 2014-05

Community based natural resource management CBNRM is a compelling concept that combines community custodianship of natural resources with sustainable development and poverty reduction However there is a large gap between the conceptual promise and actual performance of CBNRM CBNRM is complex and challenging and one of the major challenges is what we call micro governance how to replace the ubiquitous problem of elite capture within communities with genuine participation and equitable benefit sharing This book is for people want to understand and implement CBNRM governance more effectively including graduate students scholars and practitioners It is targeted most specifically at the scholar practitioner who wants to draw upon micro governance theory to know why and how to work with

communities to implement sound local institutions the perspectives and resources presented have been developed and tested over many years working with CBNRM communities in southern Africa the book offers convincing evidence for preferring participatory democracy over representational forms of governance and discusses how to manage the scale paradox that economies and ecologies are better managed at larger scales but that larger representational institutions invariably forfeit critical public goods like participation and equitable benefit sharing the book's purpose is to provide the reader with the practical tools to operationalize good governance at the village level in ways that are theoretically sound It provides the reader with theoretical insights and practical lessons about micro governance in the context of CBNRM tools for designing and implementing conceptually rigorous community constitutions that enable communities to govern themselves fairly and effectively and resources for developing the management and monitoring systems necessary to protect these conditions

Statistical Capacity Building Mr.Thomas K. Morrison,2005-11-16 IMF technical assistance provided by the Statistics Department toward assisting IMF member countries in developing the ability to provide reliable and comparable economic and financial data on a timely basis to policymakers and markets has increased more than fourfold over the past decade This assistance has proven critical in countries building their statistical capacity so as to come into line with international data standards in an increasingly globalized and electronically interconnected world Statistical Capacity Building Case Studies and Lessons Learned presents four case studies drawn from experience in three countries in transition to the market two of which were also in postconflict situations in the 1990s and early 2000s Cambodia Bosnia and Herzegovina and Ukraine Issues of setting institutional and statistical arrangements strategies and implementation are examined and lessons learned
