Endogenous Development Chiku Malunga,Susan Holcombe,2017-10-02 Western ideas worldviews actors tools models and frameworks have long dominated development theory and practice in Africa The resulting development interventions are too rarely locally rooted locally driven or resonant with local context At the same time theories and practices from developing countries rarely travel to the Western agencies dominating development undermining the possibility of a beneficial synergy that could be obtained from the best of both worlds There are many reasons why the experiences of locally driven development are not communicated back to global development actors including but not limited to the marginal role of Southern voices in global forums This volume gives a platform to authentic African voices and non African collaborators to explore what endogenous development means how it can be implemented and how an endogenous development approach can shape local national and global policies This book was originally published as a special issue of *Development in Practice* *Climate change and tenure rights: Interlinked challenges in Cambodia* de Andrade Correa, F., Jansen, L.
