

Writing a thesis is often considered one of the most challenging tasks for students. It requires a significant amount of time, effort, and dedication to complete. A thesis is a long-form academic paper that presents an original research idea and supports it with evidence and analysis. It is a crucial part of earning a degree and is often a requirement for graduation.

One of the main reasons why writing a thesis is difficult is because it requires extensive research. Students must conduct in-depth research on their chosen topic, which can be a daunting and time-consuming task. They must also critically analyze and interpret the data they gather, which can be challenging for many students.

Another difficulty of writing a thesis is the structure and formatting. A thesis must follow a specific structure and adhere to a particular formatting style, which can vary depending on the discipline. This can be overwhelming for students, especially if they are not familiar with academic writing conventions.

Moreover, writing a thesis requires excellent writing skills. Students must be able to articulate their ideas clearly and concisely, using appropriate academic language. They must also ensure that their writing is free of grammatical errors and typos, which can be challenging for non-native English speakers.

Critical Perspectives on Leadership  
Mark Learmonth, Kevin Morrell, 2019-05-01 Within contemporary culture leadership is seen in ways that appeal to celebrated societal values and norms As a result it is becoming difficult to use the language of leadership without at the same time assuming its essentially positive intrinsically affirmative nature Within organizations routinely referring to bosses as leaders has therefore become both a symptom and a cause of a deep largely unexamined new conceptual architecture This architecture underpins how we think about authority and power at work Capitalism and its turbo charged offspring neo liberalism have effectively captured leader and leadership to serve their own purposes In other words organizational leadership today is so often a particular kind of insidious conservatism dressed up in radical adjectives This book makes visible the work that the language of leadership does in perpetuating fictions that are useful for bosses of work organizations We do this so that we and anyone who shares similar discomforts can make a start in unravelling the fiction We contend that even if our views are contrary to the vast and powerful leadership industry our basic arguments rest on things that are plain and evident for all to see Critical Perspectives on Leadership The Language of Corporate Power will be key reading for

However, our understanding of leadership and organizational change in combination is far more limited. *The Leadership of Organizational Change* offers a critical review of the evolution of leadership and organizational change for the past thirty-five years, taking stock of what we know, identifying what we do not know, and establishing how the study of the leadership of change should advance. In the late seventies and early eighties, as interest in managing and leading change was fuelled by the competitive threat of Asia in general and Japan in particular, as perceived by western businesses and governments, Burns (1978) writing in his landmark book *Leadership* at this time referred to an intellectual crisis. The crisis of leadership today is the mediocrity or irresponsibility of so many of the men and women in power, but leadership rarely rises to the full need for it. The fundamental crisis underlying mediocrity is intellectual. If we know all too much about our leaders, we know far too little about leadership. While the study of managing change has benefitted from sustained critical scrutiny, particularly in the last decade, it is believed that this is to have been at the expense of critical scrutiny of leading change. *The Leadership of Organizational Change* critically reviews how the study of leading change has advanced since 1978 and the crisis of intellectual mediocrity.
