Writing the South through the Self John C. Inscoe,2011-05-01

Drawing on two decades of teaching a college level course on southern history as viewed through autobiography and memoir

John C Inscoe has crafted a series of essays exploring the southern experience as reflected in the life stories of those who lived it. Constantly attuned to the pedagogical value of these narratives, Inscoe argues that they offer exceptional means of teaching young people because the authors focus so fully on their confrontations as children, adolescents, and young adults with aspects of southern life that they found to be troublesome, perplexing, or challenging. Maya Angelou, Rick Bragg, Jimmy Carter, Bessie and Sadie Delany, Willie Morris, Pauli Murray, Lillian Smith, and Thomas Wolfe are among the more prominent of the many writers, both famous and obscure, that Inscoe draws on to construct a composite portrait of the South at its most complex and diverse. The power of place, struggles with racial, ethnic, and class identities, the strength and strains of family, educational opportunities both embraced and thwarted—all of these are themes that infuse the works in this most intimate and humanistic of historical genres. Full of powerful and poignant stories, anecdotes, and testimonials, *Writing the South through the Self* explores the emotional and psychological dimensions of what it has meant to be southern and offers us new ways of understanding the forces that have shaped southern identity in such multifaceted ways. *No More Fake Reading* Berit Gordon, 2017-07-07

For middle and high school teachers, it's one of today's most vexing problems: How do you motivate students with varied interests and little appetite for classic literature to stop faking their way through texts and start advancing as skilled, engaged readers? Independent reading is an important part of the answer, but it's just that—a part of the whole. In this groundbreaking book, Berit Gordon offers the complete solution: a blended model that combines the benefits of classic literature with the motivational power of choice reading. With the blended model, teachers lead close examinations of key passages from classic texts, guiding students to an understanding of important reading strategies they can transfer to their choice books. Teachers gain a platform for demonstrating the critical reading skills students so urgently require, and students thrive on reading what they want to read. In this research-backed book, Gordon leads you step by step to classroom success with the blended model, showing:

- The basics of getting your classroom library up and running
- How to build a blended curriculum for both fiction and non-fiction units, keeping relevant standards in mind
- Tips and resources to help with day-to-day planning
- Ideas for selecting class novel passages that provide essential cultural capital and bolster students' reading skills
- Strategies for bringing talk into your blended reading classroom
- How to reach the crucial learning goal of transfer

A practical, user-friendly approach for assessing each student's progress. *No More Fake Reading* gives you all the tools you need to put the blended model to work for your students and transform your classroom into a vibrant reading environment. Berit Gordon coaches teachers as they nurture lifelong readers and writers. Her path as an educator began in the classroom in the Dominican Republic, before teaching in New York City public schools. She also taught at the Teachers College of Columbia University in English Education. She currently works as a literacy consultant in grades 3-12 and lives in Maplewood, New Jersey, with her husband and three children.

Bringing College Education into Prisons Robert Scott, 2015-06-16

This sourcebook introduces the basic concept of college in prison, describes programs that exist across the country today, and

considers the challenges and opportunities facing community college educators who are interested in the growing movement to reintroduce postsecondary education to America's prisons. Not only do the authors write from their personal experience as educators; they also expound on many issues that arise in prison teaching, including the clash between college assumptions and prison rules, the complete absence of public funding for college in prison, the racial dimension of mass incarceration, and insights on key issues facing college educators in the prison context today. This is the 170th volume of the Jossey-Bass quarterly report series *Essential* to the professional libraries of presidents, vice presidents, deans, and other leaders in today's open-door institutions. *New Directions for Community Colleges* provides expert guidance in meeting the challenges of their distinctive and expanding educational mission.

On Writing and Publishing Lillian Cui Garcia, 2021-12-29 In this memoir, the author looks back to how even as she grew up thinking and speaking Cebuano, a major language in the Philippines, she somehow found her first literary voice in the poems she wrote in English, the language of instruction in the educational system she attended. She traces how her poetic self-expression in English soon evolved into writing personal essays through high school and college, and how this progressed into writing academic articles to keep her teaching position at a university in the Philippines. She then narrates how her academic writing background inculcated her career as a government researcher and college instructor during more than 3 decades of her 43-year permanent residency in Canada. Interweaving the stories of her writing experience with recollections of family and work life in the Philippines and Canada, she draws her journey to a full circle with her once again writing literary pieces and putting them together in the three memoirs she had self-published since 2019.

Shakespearean Essays from The Antiquary, 1880

Real Writing Mitchell Nobis, Daniel Laird, Carrie Nobis, Dawn Reed, Dirk Schulze, 2016-09-23 High school writing prompts often ask students to provide overly simplified responses to complicated issues, but a person's stance in the real world can rarely, if ever, be reduced to agree or disagree. Arguments are complex, with more than two points of view and a range of evidence to consider. However, writing classes don't always embrace that complexity. *Real Writing: Modernizing the Old School Essay* contends that engaging fully with complex texts and difficult nuanced arguments helps students become better thinkers and writers, more fully prepared for life both in and after high school. By offering students current texts to read and issues to discuss, teachers introduce their students to more complex arguments. *Real Writing: Modernizing the Old School Essay* recognizes the value of various types of texts, but the need for contemporary readings in our literature and composition classes is important for relevancy related to student engagement, the Common Core State Standards, and participation in our democratic society. This book shares
