The Oxford Handbook of Latin American Christianity David Thomas Orique, Susan Fitzpatrick-Behrens, Virginia Garrard, 2020-01-10

By 2025 Latin America's population of observant Christians will be the largest in the world. Nonetheless, studies examining the exponential growth of global Christianity tend to overlook this region, focusing instead on Africa and Asia. Research on Christianity in Latin America provides a core point of departure for understanding the growth and development of Christianity in the Global South. In *The Oxford Handbook of Latin American Christianity*, an interdisciplinary contingent of scholars examines Latin American Christianity in all of its manifestations from the colonial to the contemporary period. The essays here provide an accessible background to understanding Christianity in Latin America. Spanning the era from indigenous and African descendant people's conversion to and transformation of Catholicism during the colonial period through the advent of Liberation Theology in the 1960s and conversion to Pentecostalism and Charismatic Catholicism, *The Oxford Handbook of Latin American Christianity* is the most complete introduction to the history and trajectory of this important area of modern Christianity.

Handbook of Latina/o Theologies Edwin David Aponte, Miguel A. De La Torre, 2006-05-01

Handbook of Latino a Theologies explores the varied theological, ecclesiastical, spiritual, and cultural expressions associated with the term Latino a or Hispanic theology. There is no single definition of Hispanic/Latino theology, but rather a multiplicity of perspectives within the diverse Latino a communities that articulate a distinctive and relevant Hispanic viewpoint. This collection of thirty-four essays surveys how Latinos understand and do theology within those varied contexts. It gives attention to the history, nature, sources, and development of Latinos as theological expressions within the U.S. and their contribution to the overall theological discourse and to the individual groups that gave rise to them. Part I of the handbook presents essays on many traditional topics in Christian theology, representative both of the individual authors and various beliefs found in Latino a communities. Part II focuses on trends and contextual issues within the overall Hispanic/Latino theological conversation.

Religion in the Américas Christopher D. Tirres, Jessica L. Delgado, 2025-04-01

Religion in the Américas explores the fluid, dynamic, and complex nature of religion across Latin America and its diasporic communities in the United States. Utilizing a transdisciplinary and trans-hemispheric lens, this groundbreaking anthology transcends traditional scholarly boundaries, geographical, disciplinary, and temporal, as it explores ideas and cultural practices that share a common history of Iberian colonialism. This robust collection of essays forges a dialogue among scholars throughout the Americas who represent a variety of disciplinary perspectives. The book is divided into five sections: Fluidity in the Afro-Latine Diaspora, Aesthetics in Las Américas, Critical Feminist Epistemologies and Activism, The Limits of Institutional Religion, and Spiritual Invasions and Contagions. Throughout the volume, the concept of experience serves as a foundational lens, as

chapters examine how individuals and communities actively interpret and negotiate their realities within diverse historical and social contexts Focusing on religion as a culturally conditioned epistemic practice Religion in the Americas invites readers to engage with religion in the Americas on multiple intersecting levels of knowledge including local insights scholarly analyses and the positionality and queries of readers themselves The book's dialogical approach encourages not only continual reevaluation of the complexities of religious experience in the Americas but also creative innovation that will inspire new avenues of inquiry

The Origins of Secular Institutions H. Zeynep Bulutgil, 2022 An original theory and meticulous analysis of how advocates of political secularization emerged historically and why they succeeded in some contexts but not others Why do some countries adopt secular institutions while others do not In *The Origins of Secular Institutions* Zeynep Bulutgil develops a theory that combines ideational and organizational mechanisms to explain how institutional secularization occurs She first focuses on why political groups with a secularizing agenda emerge Her argument is that the circulation of Enlightenment literature among the elite and associations through which the elite could exchange ideas were the main factors that influenced the early emergence of secularizing political movements She then turns to the conditions under which these movements succeed Secularizing political groups are at a comparative disadvantage when it comes to recruiting grassroots support because unlike religious actors they cannot rely on a pre-existing institutional structure They become likely to overcome this obstacle if they have time to build a robust organization before religious political movements emerge Bulutgil supports these arguments by combining statistical analysis of original historical data with comparative analysis of countries in Europe France Spain The United Kingdom and the Middle East North Africa Turkey
