Masculinity Ivan Jablonka,2022-02-03 Exhilarating a work of scholarship but also inspiration Go and read Jablonka and change the world Christina Patterson Sunday Times An unexpected bestseller in France it has sparked conversations Challenges A highly acclaimed bestselling work from one of France s preeminent historians What does it mean to be a good man To be a good father or a good partner A good brother or a good friend In this insightful analysis social historian Ivan Jablonka offers a re examination of the patriarchy and its impact on men Ranging widely across cultures from Mesopotamia to Confucianism to Christianity to the revolutions of the eighteenth century Jablonka uncovers the origins of our patriarchal societies He then offers an updated model of masculinity based on a theory of gender justice which aims for a redistribution of gender just as social justice demands the redistribution of wealth Arguing that it is high time for men to be as involved in

gender justice as women Jablonka shows that in order to build a more equal and respectful society we must gain a deeper understanding of the structure of patriarchy and reframe the conversation so that men define themselves by the rights of women Widely acclaimed in France this is an important work from a major thinker **The Journey of Man** Spencer Wells, 2017-03-28 Around 60 000 years ago a man genetically identical to us lived in Africa Every person alive today is descended from him How did this real life Adam wind up as the father of us all What happened to the descendants of other men who lived at the same time And why if modern humans share a single prehistoric ancestor do we come in so many sizes shapes and races Examining the hidden secrets of human evolution in our genetic code the author reveals how developments in the revolutionary science of population genetics have made it possible to create a family tree for the whole of humanity Replete with marvelous anecdotes and remarkable information from the truth about the real Adam and Eve to the way differing racial types emerged this book is an enthralling epic tour through the history and development of early humankind

The Neanderthal's Necklace Juan Luis Arsuaga, 2009-04-29 Neanderthals are at the center of this compelling narrative by Europe's leading anthropologist not because they were our ancestors but because they were not Members of a parallel humanity that evolved in Europe for hundreds of thousands of years they were in direct competition with Cro Magnons modern humans The way Neanderthals lived and the reasons why they disappeared 50 000 years ago offer a surprising mirror in which we can examine and learn more about ourselves Illustrated concise and readable this is a fascinating exploration of human origins Lively personal refreshing and instructive this book should be read by anyone interested in their own origins and our extinct relatives Ian Tattersall author of *The Fossil Trail* *The Last Neanderthal* and *Becoming Human*

SPAFA Journal, 1997 *The First Ethiopians* Malvern van Wyk Smith, 2009-07-01 *The First Ethiopians* explores the images of Africa and Africans that evolved in ancient Egypt in classical Greece and imperial Rome in the early Mediterranean world and in the early domains of Christianity Inspired by curiosity regarding the origins of racism in southern Africa Malvern van Wyk Smith consulted a wide range of sources from rock art to classical travel writing from the pre Dynastic African beginnings of Egyptian and Nubian civilisations to Greek and Roman perceptions of Africa from Khoisan cultural expressions to early Christian conceptions of Africa and its people as demonic from Aristotelian climatology to medieval cartography and from the geo linguistic history of Africa to the most recent revelations regarding the genome profile of the continent's peoples His research led to a startling proposition Western racism has its roots in Africa itself notably in late New Kingdom Egypt as its ruling elites sought to distance Egyptian civilisation from its African origins Kushite Nubians founders of Napata and Mero who in the eighth century BCE furnished the black rulers of the twenty fifth Dynasty in Egypt adopted and adapted such Dynastic discriminations in order to differentiate their own superior Meroitic civilisation from the world of other Ethiopians In due course archaic Greeks who began to arrive in the Nile Delta in the seventh century BCE internalised these distinctions in terms of Homer's identification of two Ethiopias an eastern and a western to create a racialised and

racist discourse of worthy and savage Ethiopians Such conceptions would inspire virtually all subsequent Roman and early medieval thinking about Africa and Africans and become foundational in European thought The book concludes with a survey of the special place that Aksumite Ethiopia later Abyssinia has held in both European and African conceptual worlds as the site of worthy Ethiopia as well as in the wider context of discourses of ethnicity and race
