The Icarus Deception How High Will You Fly:

The Icarus Deception Seth Godin, 2012-12-31 In The Icarus Deception Seth Godin's most inspiring book he challenges readers to find the courage to treat their work as a form of art. Everyone knows that Icarus's father made him wings and told him not to fly too close to the sun; he ignored the warning and plunged to his doom. The lesson: Play it safe. Listen to the experts. It was the perfect propaganda for the industrial economy. What boss wouldn't want employees to believe that obedience and conformity are the keys to success? But we tend to forget that Icarus was also warned not to fly too low because seawater would ruin the lift in his wings. Flying too low is even more dangerous than flying too high because it feels deceptively safe. The safety zone has moved. Conformity no longer leads to comfort. But the good news is that creativity is scarce and more valuable than ever. So is choosing to do something unpredictable and brave. Make art. Being an artist isn't a genetic disposition or a specific talent. It's an attitude we can all adopt. It's a hunger to seize new ground, make connections and work without a map. If you do those things, you're an artist, no matter what it says on your business card. Godin shows us how it's possible and convinces us why it's essential. If Seth Godin didn't exist, we'd need to invent him. Fast Company. Seth Godin is a demigod on the web, a bestselling author, highly sought after lecturer, successful entrepreneur, respected pundit and high profile blogger. Forbes. Seth Godin is the author of thirteen international bestsellers that have changed the way people think about marketing, the ways ideas spread, leadership and change, including *Permission Marketing*, *Purple Cow*, *All Marketers are Liars*, *The Dip* and *Tribes*. He is the CEO of Squidoo.com and a very popular lecturer. His blog www.sethgodin.typepad.com is the most influential business blog in the world and consistently one of the 100 most popular blogs on any subject.

Summary of The Icarus Deception by Seth Godin, 2024-07-15 Book Description The Icarus Deception by Seth Godin. How High Will You Fly? As technology continues to become smarter and more efficient, the job market changes too. No longer are the boring and repetitive nine to five jobs as safe as they once were. The world is changing.

but that doesn't have to be a bad thing. It's time to do something about it. It's time to adapt to the new digital economy. So how can you do this? By becoming an artist. According to Seth Godin, you must embrace your creativity and break out into a field you are passionate about. Art, however, doesn't have to be painting pictures and drawing fruit in a basket. Art is simply any creative task that requires something more than a computer can offer: ingenuity, creativity, and passion. Becoming an artist might require you to go against everything you've been taught about life. You should no longer rely on the old-fashioned corporate ladder with a guaranteed salary. It's time to create a better, more fulfilling society by following your passions, even if that means giving up your cushy desk job. With Seth Godin's advice, you'll be ready to tackle your passions in no time. As you read, you'll learn why the myth of Icarus is holding you back, how being like a god will help you succeed, and why society uses shame to control your actions and prevent you from pursuing your dreams.

Intrapreneurship Handbook for Librarians Arne J. Almquist, Sharon G. Almquist, 2017-01-16. Do you have a great idea for an innovation in your library? From idea to execution, this book provides the information necessary to help you to become an intrapreneurial star at your library. Have you ever presented an idea to your boss and had it so firmly rejected that you never want to suggest anything again? Do you feel locked into a rigid hierarchy where bureaucracy has strangled all innovation? Are you motivated to shake things up in your organization to improve it but are afraid of drowning in the waves you'll create? This book explains how any individual can be an effective change agent in his/her library, addressing topics such as getting started, handling difficult situations, creating partnerships both within and outside of your organization, cutting through bureaucratic red tape, and maintaining momentum with initiatives. Written by librarians who are both experienced entrepreneurs and intrapreneurs, *Intrapreneurship Handbook for Librarians: How to Be a Change Agent in Your Library* explains what being a library intrapreneur is all about: being empowered to find innovative ways to increase impact, grow resources, and develop new methods of leveraging the skills and perspectives of librarianship to enable the survival of libraries all while enjoying your job more. The chapters guide readers through the intrapreneurial process from writing a plan and selling it to administrators and other stakeholders to securing funding for the idea and actualizing the plan, and answers tough questions such as: How do I let my clients know what my library can offer? How do we compete with the Internet? and How do I gain support for our services in a time of budget cuts? This book will be a priceless resource for all librarians regardless of experience level or type of library, as the principles and guidelines described are universal.

The Gap and The Gain Dr. Benjamin Hardy, Dan Sullivan, 2021-10-19. As he did in *WHO NOT HOW*, Dr. Benjamin Hardy shares one of Dan Sullivan's simple yet profound teachings that until now has been known only to his Strategic Coach clients: unsuccessful people focus on The Gap, but successful people focus on The Gain. This one simple concept is a masterclass on positive psychology, healthy relationships,

mental well being and high performance Everything that psychologists know about how to create a high functioning and successful person can be achieved using The GAP and the GAIN Dr Benjamin Hardy Most people especially highly ambitious people are unhappy because of how they measure their progress We all have an ideal a moving target that is always out of reach When we measure ourselves against that ideal we re in the GAP However when we measure ourselves against our previous selves we re in the GAIN That is where the GAP and the GAIN concept comes in It was developed by legendary entrepreneur coach Dan Sullivan and is based on his work with tens of thousands of successful entrepreneurs When Dan s coaching clients periodically take stock of all that they ve accomplished both personally and professionally they are often shocked at how much they have actually achieved They weren t able to appreciate their progress because no matter how much they were getting done they were usually measuring themselves against their ideals or goals In this book you will learn that measuring your current self vs your former self has enormous psychological benefits And that s really the key to this deceptively simple yet multi layered concept that will have you feeling good feeling grateful and feeling like you are making progress even when times are tough which will in turn bolster motivation confidence and future success If you re finding that happiness eludes you no matter how much you ve achieved then learning this easy mindset shift will set you on a life
