Gothic Landscapes, Sharon Rose Yang, Kathleen Healey, 2016-11-15. This book is about the ways that Gothic literature has been transformed since the 18th century across cultures and across genres. In a series of essays written by scholars in the field, the book focuses on landscape in the Gothic and the ways landscape both reflects and reveals the dark elements of culture and humanity. It goes beyond traditional approaches to the Gothic by pushing the limits of the definition of the genre. From landscape painting to movies and video games, from memoir to fiction, and from works of different cultural origins and perspectives, this volume traverses the geography of the Gothic, revealing the anxieties that still haunt humanity into the twenty-first century. *Abia South and Southeast Asian Art and Archaeology Index*, Karel R. Van Kooij, 2018-10-24. This

volume is the first tangible result of an international project initiated by the International Institute for Asian Studies (IIAS) with the aim of compiling a bibliographic database documenting publications on South and Southeast Asian art and archaeology. The bibliographic information over 1,300 records extracted from the database forms the principal part of this publication. It is preceded by a list of periodicals consulted and followed by three types of indexes which help users to find their way in the ABIA South and Southeast Asian Art and Archaeology Index.
