had in mind when I decided to write these notes on basic dog obedience training There are many basic training methods from clicker training to the more traditional methods that can be used to train a dog for obedience work The perfect training method does not exist otherwise we would all have had copies made and used on our dogs No we are all learning and improving I have adopted an eclectic approach to dog training that is I have over many years studied different training methods and selected from them what will work for most dogs At times however I may use a combination of these methods or I may shift from one method to another depending on the training need or exercise What is very important to me is that the reader must not only know about the best methods of teaching dogs today but must understand why a dog behaves the way it does Above all it must be remembered that dog training must be fun for both dog and trainer Most dog owners do not ask much of their dogs they ask only that the dogs obey some basic commands and that they are well behaved at home and in public That is why all dogs should at least do the Canine Good Citizen test I hope my notes will add to your knowledge of basic dog obedience training and that your trained dog will bring much joy to you and your family Jan Meyer BA SA MEd DCRT US HP MT
