The Great Gatsby, 2011-03 [Beyond the Five Paragraph Essay](#) Kimberly Campbell, Kristi Latimer, 2023-10-10 Love it or hate it, the five paragraph essay is perhaps the most frequently taught form of writing in classrooms of yesterday and today. But have you ever actually seen five paragraph essays outside of school walls? Have you ever found it in business writing, journalism, nonfiction, or any other genres that exist in the real world? Kimberly Hill Campbell and Kristi Latimer reviewed the research on the effectiveness of the form as a teaching tool and discovered that the research does not support the five paragraph formula. In fact, research shows that the formula restricts creativity, emphasizes structure rather than content, does not improve standardized test scores, inadequately prepares students for college writing, and results in vapid writing. In *Beyond the Five Paragraph Essay*, Kimberly and Kristi show you how to reclaim the literary essay and create a program that encourages thoughtful writing in response to literature. They provide numerous strategies that stimulate student thinking, value unique insight, and encourage lively personal writing, including the following:

- Close reading, which is the basis for writing about literature.
- Low stakes writing options that support students thinking as they read.
- Collaboration in support of discussion, debate, and organizational structures that support writing as exploration.
- A focus on students writing process as foundational to content development and structure.
- The use of model texts to write in the form of the literature students are reading and analyzing.

The goal of reading and writing about literature is to push and challenge our students thinking. We want students to know that their writing can convey something important, a unique view to share, defend, prove, delight, discover, and inspire. If we want our students to be more engaged, skilled writers, we need to move beyond the five paragraph essay.

Beyond the Traditional Essay: Increasing Student Agency in a Diverse Classroom with Nondisposable Assignments Melissa Ryan, Kerry Kautzman, 2022-07-12 This volume offers a range of responses to the problem of disposable assignments: essays written just for a grade and then thrown away. The scholars collected here explore how renewable assignments can contribute to public knowledge, eliciting student work that is shared across networks of learning that does something that transcends the teacher's grade. Although there is significant interest in such innovative

teaching practices particularly in this year of pedagogical experimentation there are few resources for teachers that collect in one place both scholarly context and practical advice for implementing renewable assignments in the classroom The essays in this volume range widely from demonstrating how digital tools engage and empower reluctant learners to raising theoretical questions around intellectual property to measuring the success of renewable assignments through outcomes assessment
