knowing who your genetic progenitors are How are our identities bound up with knowing where we come from What obligations do parents have to their children And what makes someone a parent in the first place In *Conceiving People* Identity Genetics and Gamete Donation Daniel Groll argues that people who plan to create a child with donated gametes should choose a donor whose identity will be made available to the resulting child This is not Groll argues because having genetic knowledge is fundamentally important Rather it is because donor conceived people are likely to develop a significant interest in having genetic knowledge and parents must help satisfy their children s significant interests In other words because a donor conceived person is likely to care about having genetic knowledge their parents should care too *Cultural Politics and Identity* Barbara Weber,2011 Cultural politics and identity the public space of recognition Barbara Weber Beyond understanding Rousseau and the beginning of the other Karlfriedrich Herb L vinas and the problem of mutual recognition of the consumer society and its fears Barbara Weber A phenomenological perspective on the relationship between human rights and recognition James R Mensch Heidegger Nietzsche and the struggle for Europe Gary E Aylesworth Shared life James Risser A discussion of diachronic identity the example of the painter Masuji Ono s political transformation in Kazuo Ishiguro s novel *An artist of the floating world* Eval Marsal Takara Dobashi The fate of hair and conversation on moral identity and recognition in *The man who wasn t there* Maria Sibylla Lotter Jacques Derrida No again I won t be able to of cruelty and responsibility Petra Schweitzer The futility of postcolonialism national victimhood revisited Benjamin Zachariah Hygiene sexual politics and the gendered other Chile at the beginning of the twentieth century Celina Tuozzo Anthropology alterity and com motion the quests for the other and the others quests Lisiane Koller Lecznieski Confusion of voices the crucial dilemmas of being a human being Czeslaw Milosz s poetry and the search for personal identity Andrew Wiercinski Taking selves seriously Susan T Gardner Educating for civil friendship Jen Glaser Understanding the reality interdisciplinary and arranging it socially and integratively Maria Anna B uml Rosznagl Art and community aesthetic practice as exposure to the other Dorota Glowacka Weatherless dialogues short stories Tamara Ralis **Organizational Identity** Mary Jo Hatch,Majken Schultz,2004 Ranging from theoretical contributions to empirical studies the readings in this volume address key issues of organizational identity e g multiple identities and change in identity These issues are addressed by writers working in diverse fields of study The Identity of Christian Morality Ann Marie Mealey,2016-03-03 This book argues that moral theology has yet to embrace the recommendations of the Second Vatican Council concerning the ways in which it is to be renewed One of the reasons for this is the lack of consensus between theologians regarding the nature content and uniqueness of Christian morality After highlighting the strengths and weaknesses of the so called autonomy and faith ethic schools of thought Mealey argues that there is little dividing them and that in some instances both schools are simply defending one aspect of a hermeneutical dialectic In an attempt to move away from the divisions between proponents of the faith ethic and autonomy positions Mealey enlists the help of the hermeneutical theory of Paul Ricoeur She argues that

many of the disagreements arising from the Christian proprium debate can be overcome if scholars look to the possibilities opened up by Ricoeur's hermeneutics of interpretation. Mealey also argues that the uniqueness of Christian morality is more adequately explained in terms of a specific identity self that is constantly subject to change and revision in light of many often conflicting moral sources. She advocates a move away from attempts to explain the uniqueness of Christian morality in terms of one specific unchanging context: motivation, norm, divine command, or value. By embracing the possibilities opened up by Ricoeurian hermeneutics, Mealey explains how concepts such as revelation, tradition, orthodoxy, and moral conscience may be understood in a hermeneutical way without being deemed sectarian or unorthodox.

Muslims, Identity, and American Politics Brian Calafano, 2018-04-27 Calafano provides an examination of the pressures faced by Muslims often considered political and social outsiders in western nations, especially in the United States. Identity is a complex concept, especially when considering the role that group attachments play in affecting how one sees her/his role in the political environment of their country of residence. Perhaps the greatest tension in this regard is felt by those who are often considered outsiders in their home country despite significant ties to their nation. Though citizens and second-generation residents in many cases, American Muslims face a combination of suspicion, government scrutiny, and social segregation in the United States despite significant education and economic assimilation in America. The crux of the investigation advanced here centres on how group influence, emotions, and religious interpretation contribute to the political orientation and behaviour of a national sample of Muslims living in the American context. A compelling explanation as to how members of an ostracized political group marshal the motivation to push through suspicion to become fully engaged political actors. This book has wide relevance and will be of interest to scholars researching Muslims and political participation across the fields of political science, history, sociology, and religion.

The Identity of Jesus Christ, Expanded and Updated Edition Hans W. Frei, 2013-11-19 This is a book about Jesus of Nazareth. It is not a book about story, nor about narrative theology. Hans Frei was not a theologian of story or of narrative in any general way, and this book is neither about the narrative quality of our existence, nor the gospel's relation to that quality, nor about the narrative shape of the Scriptures as a whole, nor the call on us to place ourselves within that narrative. Rather, this is a book about the way in which Jesus of Nazareth's identity is rendered by the Gospels, largely the Synoptic Gospels, particularly the Gospel of Luke, and especially in the passion and resurrection sequences, by means of a certain kind of narrative. From the Foreword by Mike Higton.
