Fundamental Labour Rights and the Constitution Giulia Frosecchi, 2023-07-05 The book reflects on constitutional balancing from the perspective of fundamental labour rights It draws on neo constitutional theories and builds on the assumption that fundamental labour rights understood as rights aimed at protecting workers during their working life or after retirement are the normative expression of founding values and can be balanced against equally axiological constitutional principles The balancing of constitutional labour rights can be conducted by various institutional actors and by applying different techniques This volume reviews the theoretical debates on judicial balancing and the approaches adopted by the Court of Justice of the European Union and the European Court of Human Rights to proceed with a closer assessment of Italian and Spanish judicial traditions In particular it addresses the main profiles of the case law of the Italian and Spanish Constitutional Courts on labour and social law reforms adopted in the aftermath of the 2008 crisis where balancing takes place between labour rights and economic principles The analysis is focused on four main aspects the fundamental labour rights in the balance the role of the Courts the technique applied by the Judges and the constitutional interests subject to the balancing It ultimately reveals that the axiological nature of fundamental labour rights is preserved and the economic and financial contingencies confirm their factual character although they are occasionally recognised a prominent role in the ratio decidendi The book will be a valuable resource for academics and researchers working in the areas of labour law social security law legal theory and constitutional law

The Federal Contract Stephen Tierney, 2022-05-26 Federalism is a very familiar form of government It characterises the first modern constitution that of the United States and has been deployed by constitution makers to manage large and internally diverse polities at various key stages in the history of the modern state Despite its pervasiveness in practice this book argues that federalism has been strangely neglected by constitutional theory It has tended either to be subsumed within one default account of modern constitutionalism or it has been treated as an exotic outlier a sui generis model of the state rather than a form of constitutional ordering for the state This neglect is both

unsatisfactory in conceptual terms and problematic for constitutional practitioners obscuring as it does the core meaning purpose and applicability of federalism as a specific model of constitutionalism with which to organise territorially pluralised and demotically complex states In fact the federal contract represents a highly distinctive order of rule which in turn requires a particular territorialised approach to many of the fundamental concepts with which constitutionalists and political actors operate constituent power the nature of sovereignty subjecthood and citizenship the relationship between institutions and constitutional authority patterns of constitutional change and ultimately the legitimacy link between constitutionalism and democracy In rethinking the idea and practice of federalism this book adopts a root and branch recalibration of the federal contract It does so by analysing federalism through the conceptual categories that characterise the nature of modern constitutionalism foundations authority subjecthood purpose design and dynamics This approach seeks to explain and in so doing revitalise federalism as a discrete capacious and adaptable concept of rule that can be deployed imaginatively to facilitate the deep territorial variety that characterises so many states in the 21st century

Tunisian Civil Society

Alexander P. Martin, 2020-04-13 Investigating the political transition after the 2011 Tunisian revolution this book explores whether civil society is fulfilling its democratic functions Examining the existence of a civil political culture that is identified through the presence of the six criteria of Freedom Equality Pluralism Tolerance Trust and Transparency The innovation of the volume lies in its critiques of the transitology literature its illustration of the drawbacks of culturalist and Orientalist narratives of Arab politics and the complexity it notes with respect to civil society and its varied roles especially that civil society is not always an unconditionally good or democratic force Using a combination of survey interview and observation research approaches these chapters engage with the development of democratic political culture and democratic knowledge in civil society organisations CSOs by understanding how CSOs interact with the state other CSOs and their members Presenting both critical theoretical arguments and extensive empirical evidence to demonstrate why Tunisia is such an important case this book will be of interest to students and researchers interested in political culture civil society and Middle East and North African studies

The Flight of Icarus Yiannis Drossos, 2020-12-10 This book provides a detailed analysis of the institutional transformations brought about by the financial crisis focusing on the institution building course of Europe and the Constitution bending course in several Member States It discusses the seemingly contradictory interplay between national and European institutions and the law resulting from the crisis arguing that the anti crisis exceptionality constitutes the matrix of the new normality of the reformed European economic governance The author carries out a critical analysis of the new economic governance and its case law with regular reference to relevant political episodes key economic figures and to the hitherto lax modes and rules The author also offers deep insights into the Greek adjustment programme and the crisis related Greek and Portuguese constitutional case law presented in comparison with the German and French case law The book concludes with a critical overview of the profound mutations in the role of national Constitutions instigated by the new

Budgeting for Local Governments and Communities Douglas Morgan, Kent S. Robinson, Dennis Strachota, James A. Hough, 2017-09-19 *Budgeting for Local Governments and Communities* is designed as the primary textbook for a quarter or semester long course in public budgeting and finance in an MPA programme Many currently available texts for this course suffer from a combination of defects that include a focus on federal and state budgeting a lack of a theoretical governance framework an omission of important topics and typically a lack of exercises and datasets for student use *Budgeting for Local Governments and Communities* solves all of these problems The book is exceptionally comprehensive and well written and represents the efforts of veteran authors with both teaching and real world experience Key Features Special Focus on Local Government Budgeting focuses exclusively on budgeting at the local levels of American government which are responsible for spending 40 percent of the taxes collected from citizens Integration of Theory and Practice teaching cases and chapters capture the lessons learned by professional practitioners who have extensive experience in making local public budgeting work on the ground Polity Approach to Local Budgeting presents an introduction to local budgeting as the central political activity that integrates the resources of the community into a unified whole Budgeting is presented as governance work rather than as a unique set of skills possessed by analysts and financial specialists Legal Historical Economic and Moral Foundations of Local Government Budgeting provides readers with an understanding of how the structures and processes of local budgeting systems are firmly tethered to the underlying core values legal principles and historical development of the larger American federal state and local political systems Electronic Datasets and Budgeting Exercises the text includes access to extensive electronic datasets and practice exercises that provide abundant opportunities for students to learn through doing Extensive Glossary and Bibliography covers terms on the history and practice of local public budgeting

A Contest without Winners Kate Phillippo, 2019-03-19 Seeing the consequences of competitive school choice policy through students eyes While policymakers often justify school choice as a means to alleviate opportunity and achievement gaps an unanticipated effect is increased competition over access to coveted high performing schools In *A Contest without Winners* Kate Phillippo follows a diverse group of Chicago students through the processes of researching applying to and enrolling in public high school Throughout this journey students prove themselves powerful policy actors who carry out and redefine competitive choice Phillippo s work amplifies the voices of students rather

than the parents educators public intellectuals and policymakers who so often inform school choice research and investigates how students interact with and emerge from competitive choice academically developmentally and civically Through students experiences she shows how competitive choice legitimates and exacerbates existing social inequalities collides with students developmental vulnerability to messages about their ability merit and potential and encourages young people s individualistic actions as they come to feel that they must earn their educational rights From urban infrastructure to income inequality to racial segregation Phillippo examines the factors that shape students policy enactment and interpretation as policymakers and educators ask students to compete for access to public resources With competitive choice even the winners the lucky few admitted to their dream schools don t outright win A Contest without Winners challenges meritocratic and market driven notions of opportunity creation for young people and raises critical questions about the goals we have for public schooling
