Fundamental British Values Vini Lander, 2019-05-17 This book seeks to investigate how the pedagogic space of schools and classrooms has been defined by the UK government's counter terrorism Prevent strategy most notably through the requirement on teachers not to undermine fundamental British values as part of the Teachers Professional Standards The term fundamental British values migrated from Prevent to the statutory framework that regulates teacher professionalism and has effectively securitized education practice The Prevent strategy was conceived in response to the 7/7 bombings in London by so-called home-grown Muslim terrorists The need for teachers to promote British values is an attempt to forge a cohesive British identity among young citizens within a multiracial multicultural and multilingual society However as the chapters in this book illustrate the state project to harness education to engender belonging or as some would argue civic nationalism whilst simultaneously undertaking surveillance of children and young people from the Muslim community for signs of radicalization has led to the perception of a hierarchy of citizens or conversely insider outsider citizens The imperative to promote and not undermine fundamental British values has in some instances transformed the safe space of the classroom where children and young people's right to explore their perceptions of current affairs citizenship and belonging has been curtailed for fear of surveillance by teachers who may interpret their utterances as either undermining British values or to be signs of radicalization This book explores these dilemmas for teachers and the implications for their professionalism and examines how racist nativism has pervaded society educational policy and practice through the promotion of a Britishness perceived by many as a raced classed and exclusionary discourse This book was originally published as a special issue of the Journal of Education for Teaching

The Athenian Tribute Lists Benjamin Dean Meritt, H. T. Wade-Gery, Malcolm Francis McGregor, 1950-12. This book is the third of four volumes presenting the standard text of and commentary on the inscriptions that have come to be known as the Athenian Tribute Lists. Through the tribute lists, historians have been able to study the extent and nature of the Athenian empire that grew out of the Delian League established to combat the Persians in 478 B.C. The inscriptions provide evidence of the money paid to Athens by other members of the League after the tribute treasury was moved from Delos to Athens in 454 B.C. The texts persist from the 450s through to the 430s, after which the evidence is very fragmentary and often undatable. This volume provides a historical commentary on the inscriptions presented in detail in Volumes I and II, tying them into a history of the Athenian empire in narrative form.
