Proceedings of the 4th Asia Pacific Management Research Conference (APMRC 2022) Eva Hotnaidah

Saragih, Rike Penta Sitio, Rosita Fitriyani, Dhinar Silalahi, Yeneneh Tamirat Negash, 2023-02-10 This is an open access book. It has been our great honor to welcome all the participants to the 4th Asia Pacific Management Research Conference, which was held in Surabaya, Indonesia, on May 18th-20th, 2022, as a hybrid conference (virtual and physical). I recalled formulating the concept and conducting this conference with the Research Center and Case Clearing House (RC CCH) Team back in 2017. The conference encourages fresh and impactful studies that address the latest issues and topics, particularly in economics, management, business, and accounting. The forum particularly welcomes the discussion and sharing among research fellows in a semi-formal academic setting. As we reach the fourth conference, we are confident that we will maintain a contribution to the global literature. It is undeniable that the theme of the COVID-19 Pandemic is the main issue of this fourth conference, but rather than focusing on the misery, we look for models, technologies, and concepts that are beneficial for the economy and businesses to grow toward the new normal. This conference received 136 abstracts, of which 57 were accepted articles in Atlantis Proceedings. Media Research and Research Paper Writing Mr. Rohit Manglik, 2023-11-23 Teaches methods of media research and academic writing for scholarly publishing. *Handbook of Pricing Research in Marketing* Vithala R. Rao, 2009 Pricing is an essential aspect of the marketing mix for brands and products. Further pricing research in marketing is interdisciplinary, utilizing economic and psychological concepts with special emphasis on measurement and estimation. This unique Handbook provides current knowledge of pricing in a single authoritative volume and brings together new cutting-edge research by established marketing scholars on a range of topics in the area. The environment in which pricing decisions and transactions are implemented has changed dramatically, mainly due to the advent of the Internet and the practices of advance selling and yield management. Over the years, marketing scholars have incorporated developments in game theory and microeconomics, behavioral decision theory, psychological and social dimensions, and newer market mechanisms of auctions in their contributions to pricing research. These chapters, specifically written for this Handbook, cover these various developments and concepts as applied to tackling pricing problems. Academics and doctoral students in marketing and applied economics, as well as pricing-focused business practitioners and consultants, will appreciate the state-of-the-art research herein. **UGC**
