Territorial Army Future Challenges:

Territorial Army LT Col H Katoch,2013-08-01 This book has been written with intent of echoing a fact that the defence of a nation is a right of every one of its citizens It tries to apprise countrymen about the availability of an efficient and flexible citizen friendly tool the Territorial Army TA existing in our country for everyone to fulfill this right It has been attempted to highlight the potential of TA as a national reserve and the identity crisis it is presently facing Can Army be everywhere Do we really need a force like TA when adequate standing army is there How large a reserve force can our country afford An attempt has been made to address all such issues and bring out answers **Territorial Army** Lieutenant Colonel Surender Singh,2020-06-27 I would encourage every patriotic Indian looking to contribute to the defence of our motherland to read this book to draw their respective course of actions Anil Sharma Producer Director of Bollywood movie Gadar In the present global environment to protect their freedom and territorial integrity countries need armed forces To complement such forces reserves are required This can be met by the creation of a body of part time soldiers in the form of a territorial army with short training spells on weekends and holidays This body which is fondly known as the citizens army across the world can be formed out of all able bodied men and women who are willing to defend their motherland and in the normal course are engaged in their respective civilian occupations The officers of this type of army including those in high staff and leadership positions from the corporate world or otherwise would principally be citizen soldiers supported by a limited number of professional soldiers from the regular army These regular soldiers would comprise the staff and command appointments which require continuity and full time commitments and who would also perform permanent technical administrative and training assignments Nations which adopt this kind of a military system assume a large and ready defence force of immediate combat value at a cost to the exchequer far below that of the more familiar nature of military systems Reserve Forces Great Britain: National Audit Office,2006-03-31 Reserve Forces mainly consist of approximately 36 000 Volunteer Reserves and some 52 000 Regular Reserves former Regular service personnel who retain a liability to be called up They are an integral and vital part of the United Kingdom s defence capability making up some 11 per cent of the Iraq Operation TELIC manpower since 2003 for example But the Ministry of Defence the Department faces a number of challenges in sustaining the future use of the Reserve Forces All of the Volunteer Reserves are below strength with the highest manning levels at December 2005 in the Territorial Army at 81 per cent of current requirement There are difficulties in providing training for Reservists caused by problems with scheduling resource constraints and the lower priority they are given Turnover is high many Reservists cite personal family and employment pressures as reasons for leaving but also reasons such as inadequate support and no longer a challenge The Department is not yet in a strong position to judge the cost effectiveness of Reserve Forces the NAO estimates the total cost of the Reserves as 440 million implying that the approximate cost of a member of the Territorial Army for example is some 10 000 a year when not deployed compared with a cost of 55 000 a year for a soldier in

the Regular Army The costs for Reserves are not full costs so should be treated with care but the comparison suggests that the use of Reserves is a cost effective option where that use does not impact adversely on their availability for future requirements or on Reservists their families and employers The NAO makes thirteen recommendations concerning recruitment training costs performance retention and welfare and support services The Monthly Army List Great Britain.
