The Girls From Winnetka:

The Girls from Winnetka Marcia Chellis, 2010-05-17 Five women who come of age in the Fifties tell how and why their lives change decade after decade to the present In the Fifties as part of a group of high school friends they are programmed to please to be perfect and to be virgins until marriage The scripts for their lives are written They will marry the June they graduate from college have children and live happily ever after on the North Shore of Chicago Their parents do not urge them to prepare for a profession because they are expected to depend on a man for their identity and support But the girls have other ideas While many of their friends gladly follow traditional paths these women adapt deeply ingrained standards to what is happening around them They take flight from their predestined lives to lives of self reliance and independence And along with the other women of their generation who hold similar visions they leave a legacy of choices to the next generation of young women After opening their hearts and revealing their secrets and life stories which they describe as a powerful and rewarding experience they encourage readers to journal about exceptional or significant moments in their lives

web evaluate the determinant of a 2×2 matrix if a matrix has the same number of rows and columns we call it a square matrix each square matrix has a real number associated with it called its determinant to find the determinant of the square matrix $\begin{vmatrix} a & b \\ c & d \end{vmatrix}$ we first write it as $a \cdot d - b \cdot c$

web so there are two quantities which can be found in a matrix minors and cofactors minors exist for each element of the matrix and are defined as the determinant of the matrix you get when you ignore the row and column of the element in question for example if my matrix is as follows $\begin{vmatrix} 1 & 2 & 3 & 4 & 5 & 6 & 7 & 8 & 9 \end{vmatrix}$

web matrix determinants are easy to define and hard to understand so let's start with defining them and introducing related notation in other videos we will learn what they mean and how to use them
