The Comic Strip Art of Jack B. Yeats Michael Connerty, 2021-08-30 This monograph seeks to recover and assess the critically neglected comic strip work produced by the Irish painter Jack B Yeats for various British publications including *Comic Cuts* *The Funny Wonder* and *Puck* between 1893 and 1917 It situates the work in relation to late Victorian and Edwardian media entertainment and popular culture as well as to the evolution of the British comic during this crucial period in its development Yeats recurring characters including circus horse Signor McCoy detective pastiche Chubblock Homes and proto superhero Dicky the Birdman were once very well known part of a boom in cheap and widely distributed comics that Alfred Harmsworth and others published in London from 1890 onwards The repositioning of

Yeats in the context of the comics and the acknowledgement of the very substantial corpus of graphic humour that he produced has profound implications for our understanding of his artistic career and of his significant contribution to UK comics history This book which also contains many examples of the work should therefore be of value to those interested in Comics Studies Irish Studies and Art History **Impressively Free** Higgins, Michael W., Burns, Kevin, 2019 Explores the genesis and evolution of Nouwen s multi layered understanding of priestly ministry **The Jamesian Mind** Sarin Marchetti, 2021-12-28 William James 1842 1910 is widely regarded as the founding figure of modern psychology and one of the most important philosophers of the nineteenth and twentieth centuries Renowned for his philosophical theory of pragmatism and memorable turns of phrase such as stream of consciousness and the will to believe he made enormous contributions to a rich array of philosophical subjects from the emotions and free will to religion ethics and the meaning of life The Jamesian Mind covers the major aspects of James s thought from his early influences to his legacy with over forty chapters by an outstanding roster of international contributors It is organized into seven parts Intellectual Biography Psychology Mind and Self Ethics Religion and Politics Method Truth and Knowledge Philosophical Encounters Legacy In these sections fundamental topics are examined including James s conceptions of philosophical and scientific inquiry habit self free will and determinism pragmatism truth and pluralism Considerable attention is also devoted to James in relation to the intellectual traditions of empiricism and Romanticism as well as to such other philosophical schools as utilitarianism British idealism Logical Empiricism and existentialism James s thought is also situated in an interdisciplinary context including modernism sociology and politics showcasing his legacy in psychology and ethics An indispensable resource for anyone studying and researching James s philosophy The Jamesian Mind will also interest those in related disciplines such as psychology religion and sociology **The Life, Death & Last Words of the Ultimate Femme Fatale MATA HARI** Dr. Anup Kumar Chanda, Her beauty brought her fame her seduction made her dangerous and her vengeance made her deadly An exotic dancer who captivated Belle poque Paris she was known as Mata Hari meaning Eye of the Dawn in Malay Her performances filled with tales of lust jealousy and passion enthralled the public However during World War I she was accused by the French of espionage for the Germans using her allure to extract military secrets from influential men Mata Hari remains a symbol of female betrayal her life a thrilling blend of exotic dance and espionage This book the third in the Last Words Series explores the life death and last words of Mata Hari executed by the French for alleged espionage *Lost Circuses of Ohio* Conrade C.
