The Heart Of A Military Leader:

The Military Leader Andrew Steadman, 2018-11-29 As a leader you know that developing leaders is crucial to your team's success. You also know that when life gets busy, meaningful leader development activities take a back seat to the swarm of everyday tasks. Who has time to discuss, let alone research and refine quality content that will make a real difference? Andrew Steadman has lived this frustration and wrote *The Military Leader* to give leaders straightforward, highly relevant, inspirational leader development insight they can use to grow themselves and their teams. *The Military Leader* is your leader development program when you don't have time for one.

The Military Leadership Handbook Robert W. Walker, Bernd Horn, 2008-09-29 In the simplest of terms, leadership is about influencing people to achieve an objective that is important to the leader, the group, and the organization. It is the human element leading, motivating, and inspiring, particularly during times of crisis, chaos, and complexity, when directives, policy statements, and communiques have little effect on cold, exhausted, and stressed followers. Strong leadership encourages subordinates to go beyond the obligation to obey and commit to the mission in a way that maximizes their potential. *The Military Leadership Handbook* is a concise and complete manual that identifies, describes, and explains all those concepts, components, and ideas that deal with or directly relate to military leadership. The book is a comprehensive compendium that focuses on, among other subjects, cohesion, command, cultural intelligence, discipline, fear, and trust. This applied manual provides invaluable assistance to anyone who wishes to acquire a better understanding of both the theory and application of military leadership.

Ethics, the Heart of Leadership Joanne B. Ciulla, 2014-09-09 Top academic scholars ponder the question of ethics as it pertains to all aspects of leadership in business government and nonprofit organizations If leaders were defined by their influence on history Hitler would be on par with Gandhi Lincoln and Mother Theresa Yet most of us

believe that our superiors have a responsibility to exercise power with a purpose far greater than any political agenda and a motive more noble than personal gain This thought provoking collection of essays explores the ethical challenges that leaders face in their relationships with followers the choices they make and the ways in which they influence others Joanne Ciulla and her contributors examine the traits and characteristics of top tier leaders She questions the assumption that moral fortitude is an inherent part of being in charge analyzes the roles that charisma morality and delegation play in the leadership paradigm and considers whether individuals who want to lead with integrity but are sometimes forced to get their hands dirty for their constituents can be called moral leaders Readers will gain an appreciation for how ethics is not an add on to the practice of leadership but rather an integral part of it an element that informs the very idea of what it means to lead and to lead well

[Political Affairs of the Heart](#) Linda Van Netten

Blimke, 2022-07-15 Richly researched and engagingly written *Political Affairs of the Heart* traces the emergence of female sentimental travel writing in late eighteenth century Britain and posits its centrality to women's engagement with national and gender politics. This study examines four travel narratives written by women between 1774 and 1795 convincingly arguing that they effectively deploy the discourse of sensibility to engage with debates around Britain's national identity during the French and American Revolutions. Van Netten Blimke contends that Laurence Sterne's *A Sentimental Journey* 1768 which first introduced sentimental discourse to the travelogue facilitated women's gradual inclusion into this previously male dominated genre effectively paving the way for women to influence the country's sociopolitical transformation. These four previously understudied works successfully combine eyewitness authority with the language of sensibility to mount impassioned interventions in their nation's perception and practice of revolutionary politics at a time when its national identity was most in flux.
