From the Silk Road to Russian colonization to Soviet rule, Central Asia's ever-changing nations continue to play an important role in international society today. The History of Central Asia Christoph Baumer, 2018

The History of Central Asia Christoph Baumer, 2016-05-30 Between the ninth and the fifteenth centuries, Central Asia was a major political, economic, and cultural hub on the Eurasian continent. In the first half of the thirteenth century, it was also the pre-eminent centre of power in the largest land-based empire the world has ever seen. This third volume of Christoph Baumer's extensively praised and lavishly illustrated new history of the region is above all a story of invasion when tumultuous and often brutal conquest profoundly shaped the later history of the globe. The author explores the rise of Islam and the remarkable victories of the Arab armies which, inspired by their vital, austere, and egalitarian desert faith, established important new dynasties like the Seljuks, Karakhanids, and Ghaznavids. A golden age of artistic, literary, and scientific innovation came to a sudden end when, between 1219 and 1260, Genghiz Khan and his successors overran the Chorasmanian Abbasid lands. Dr Baumer shows that the Mongol conquests, while shattering to their enemies, nevertheless resulted in much greater mercantile and cultural contact between Central Asia and Western Europe.

M.,UNESCO,1992-12-31 Volume 1 of this UNESCO multi volume series traces the history of man in this vast region from the Palaeolithic beginnings to circa 700 BC when the foundations of the Achaemenian Empire were laid The earliest history of man is evidenced and the food producing areas of Turkmenistan Tajikistan and the Indus Valley explored The Bronze Age and the first signs of urbanization from the Indus to the Oxus are described as is the development of the nomadic pastoral tribes such as the Aryans whose history can be seen in proper perspective through archaeological evidence now available A comprehensive first instalment for any enthusiast interested in the history and development of Asia A Concise History of Afghanistan-Central Asia and India in 25 Volumes HAMID ALIKUZAI,2015-01-19 Thirteen years after the U S invasion of Afghanistan Thirteen years after the U S invasion of Afghanistan the gains that the international coalition has made with its local partners are real but reversible Afghanistan is no longer a global hub of terrorist activity but Taliban resurgence would threaten to make it one again Reconstruction assistance has produced demonstrable progress in health education and

economic well being but corruption and governance problems have undermined popular support for the government in Kabul and constrained the overall level of progress Internationally a coalition still backs the International Security Assistance Force ISAF military mission However NATO s will is waning China Russia and India are largely free riders and Punjab and Iran publicly say the right things while destabilizing Afghanistan by privately meddling to their own ends Political and economic realities in the United States make the current level of American engagement in Afghanistan unsustainable But as the commitment of coalition partners fades what Washington decides will shape the future of South Asia Looking ahead there are three different scenarios for American engagement in Afghanistan It remains to be seen exactly which route Washington will take But it is clear that U S interests require a long term commitment not only in Afghanistan but across the region Lest it be forgotten the consequences of ignoring the region in the 1990s were visited upon the United States on 9 11 So the most vital goals present day are defeating the remnants of al Qaeda in Punjab preventing the reemergence of terrorist sanctuaries in Afghanistan ensuring the security of Punjab s nuclear weapons and discouraging Punjab s use of extremism and terror as a policy instrument There are three ways forward Each entails a different degree of involvement and carries varying risks and rewards The first option is the riskiest Future 1 Immediate Departure and the Reallocation of Resources because discontent among the U S public over the war is already at an all time high
