The Hundred Year Marathon:

The Hundred-Year Marathon Michael Pillsbury, 2015-02-03 One of the U S government's leading China experts reveals the hidden strategy fueling that country's rise and how Americans have been seduced into helping China overtake us as the world's leading superpower For more than forty years the United States has played an indispensable role helping the Chinese government build a booming economy develop its scientific and military capabilities and take its place on the world stage in the belief that China's rise will bring us cooperation diplomacy and free trade But what if the China Dream is to replace us just as America replaced the British Empire without firing a shot Based on interviews with Chinese defectors and newly declassified previously undisclosed national security documents The Hundred Year Marathon reveals China's secret strategy to supplant the United States as the world's dominant power and to do so by 2049 the one hundredth anniversary of the founding of the People's Republic Michael Pillsbury a fluent Mandarin speaker who has served in senior national security positions in the U S government since the days of Richard Nixon and Henry Kissinger draws on his decades of contact with the hawks in China's military and intelligence agencies and translates their documents speeches and books to show how the teachings of traditional Chinese statecraft underpin their actions He offers an inside look at how the Chinese really view America and its leaders as barbarians who will be the architects of their own demise Pillsbury also explains how the U S government has helped sometimes unwittingly and sometimes deliberately to make this China Dream come true and he calls for the United States to implement a new more competitive strategy toward China as it really is and not as we might wish it to be The Hundred Year Marathon is a wake up call as we face the greatest national security challenge of the twenty first century

America's Greatest Challenge Newt Gingrich, 2019-10-22 Former Speaker of the House Newt Gingrich sounds the warning bell that communist ruled China poses the biggest threat to the United States that we have seen in our lifetime The United States is currently engaged in a competition with the Chinese government unlike any

other that we have witnessed before This is a competition between the American system which is governed by freedom and the rule of law and a totalitarian dictatorship that is controlled by the Chinese Communist Party These are two different visions for the future one will succeed and one will fail It is possible for America to respond to the Chinese Communist Party s efforts but doing so will require new thinking many big changes and many hard choices for our leaders in government and private sector Newt Gingrich s Trump vs China serves as a rallying cry for the American people and a plan of action for our leaders in government and the private sector Written in a language that every American can understand but still rich in detail and accurate in fact Trump vs China exposes the Chinese Communist Party s multi pronged threat against the United States and what we must do as a country to survive

Bully of Asia Steven W. Mosher, 2017-11-27 The Once and Future Hegemon In a world bristling with dangers only one enemy poses a truly mortal challenge to the United States and the peaceful and prosperous world that America guarantees That enemy is China a country that invented totalitarianism thousands of years ago whose economic power rivals our own that believes its superior race and culture give it the right to universal deference that teaches its people to hate America for standing in the way of achieving its narcissistic dream of world domination that believes in its manifest destiny to usher in the World of Great Harmony which publishes maps showing the exact extent of the nuclear destruction it could rain down on the United States Steven Mosher exposes the resurgent aspirations of the would be hegemon and the roots of China s will to domination in its five thousand year history of ruthless conquest and assimilation of other nations brutal repression of its own people and belligerence toward any civilization that challenges its claim to superiority The naive idealism of our China hands has lulled America into a fool s dream of engagement with the People s Republic of China and its peaceful evolution toward democracy and freedom Wishful thinking says Mosher has blinded us to the danger we face and left the world vulnerable to China s overweening ambitions Mosher knows China as few Westerners do Having exposed as a visiting graduate student the monstrous practice of forced abortions he became the target of the regime s crushing retaliation His encyclopedic grasp of China s history and its present day politics his astute insights and his bracing realism

China's Diplomacy over the Northeast Question Ideologies, Thoughts and Values, 1858 - 1919 Xichao Yu, 2024 This book explores the formation of modern Chinese diplomacy by examining how classical Chinese philosophy influenced diplomatic responses to foreign encroachments in Northeast China or Manchuria during the historical period from the signing of the Treaty of Aigun in 1858 to China's participation in the Paris Peace Conference in 1919 Drawing primarily on Qing dynasty and Beiyang government diplomatic archives and classical Chinese historiography it highlights the role of Confucian based principles in shaping the diplomatic thinking of the Qing dynasty and Beiyang governments Through a top down state centric analysis the research suggests that these traditional Chinese cultural values provided a distinct intellectual and theoretical framework for modern Chinese leaders guiding diplomatic decisions amid foreign incursions and modernisation pressures It underscores the lasting impact of China's traditional cultural knowledge on its diplomatic evolution particularly in resolving the so called Northeast Question

Space Is Power John Hickman, 2016-02-29 From Russia's annexation of Crimea to China's nine dash line in the South China Sea it is clear that territory is as important in international politics now as it has ever been Yet too few contemporary foreign policy makers journalists and scholars are able to speak coherently about territorial issues *Space Is Power The Seven Rules of Territory* challenges the intellectual conceits that human territoriality is merely a social construct that territorial sovereignty is atavistic that territorial annexation is always irrational and that territorial disputes are provoked by foreign

policy makers who seek to divert public attention from more important issues Space Is Power argues that territoriality is too basic to human nature to be denied and territorial sovereignty is too important to the survival of the modern state to be ignored The truths about territory are captured in seven rules some of which are intuitive while others contradict conventional wisdom Rather than anticipating the transcendence of the territorial states this book argues that the unmistakable direction of international politics is toward encompassing ever more physical space as the territory of states
