Trinity and Election Shao Kai Tseng,2023-01-26 Challenging Bruce McCormack s paradigm of post Kantian Barth scholarship this book builds on the interpretative model that Sigurd Baark developed in 2018 This model interprets Barth s innovative adoption of an Anselmian mode of theological speculation against the intellectual historical background of the idealist tradition of speculative metaphysics that culminated in Hegel This book argues that Barth adopted the Anselmian mode of speculation in which immediate self identity between subject object and act is found in the triune God alone while the speculative identity that enables human knowledge of God is none other than the identity between God in and for Godself and God for us Exploring the nationalistic dimension of speculative metaphysics in 19th century Germany Tseng identifies this as an important aspect of the context of Barth s development of a Christocentric form of speculative theology
