assure that all students understood the lesson Each person learns through different approaches The typical lecture setting may be an effective way for some but others will find it difficult to grasp the material Admiringly there are some institutions that extend extra effort to apply the different learning methods to boost the performance of their students This is the reason why some professors combine lectures group works projects reports and such in their syllabi They aim to give each learner a chance to comprehend the lesson by applying it in different ways However as a student you may never understand the way you learn even when professors go this extra mile When studying for exams it s important for every learner to self study but there can be more than one way to review Your job as a person of intellectual pursuit is to know which learning styles you fall in to make your studies more effective From determining your learning style to keeping a flawless timetable all the skills you need this year are detailed on the following pages of this book so journey on and follow the path to excellence **Study**
