Peasants and Poverty (Routledge Revivals) Mats Lundahl, 2015-05-15 Haiti is a country which until the earthquake of 2010 remained largely outside the focus of world interest and outside the important international historical currents during its existence as a free nation The nineteenth century was the decisive period in Haitian history serving to shape the class structure the political tradition and the economic system During most of this period Haiti had little contact with both its immediate neighbours and the industrialised nations of the world which led to the development of Haiti as a peasant nation This title first published in 1979 examines the factors responsible for the poverty of the Haitian peasant by using both traditional economic models as well as a multidisciplinary approach incorporating economics and other branches of social science The analysis deals primarily with the Haitian peasant economy from the early 1950s to the early 1970s examining in depth the explanations for the secular tendency of rural per capita incomes to decline during this period *The Primary Sector in Economic Development (Routledge Revivals)* Mats Lundahl, 2015-05-08 It is a major problem for less developed countries to make their primary sectors sufficiently profitable in order to be able to build up their manufacturing and service sectors This edited collection first published in 1985 examines the nature of the primary sector and its role in economic development Chapters consider problems of stagnation and income distribution in such countries as Chile and Brazil trade in national primary products and exports in Africa and the Middle East and reform and policies of development in countries such as Peru An interesting volume with an international scope this title will be of value to economics students with a particular interest in the role of the primary sector in developing economies **The Haitian Economy** Mats Lundahl, 1983

Economic analysis of reasons for underdevelopment and poverty in Haiti reviews historical trends 1492 to 1971 analyses agrarian structure land ownership and sharecropping international migration population density and emigration to Cuba and Dominican Republic surveys agricultural market integration and correlation of agricultural price series examines cooperative structure obstacles to technological change and the precarious situation of peasant farmers and need for government interest in economic development Bibliography **International Current Awareness Services**, 1993 Indexes current publications in anthropology including material too ephemeral for its parent annual the International bibliography of social and cultural anthropology and has only limited coverage of monographs Peasants and Poverty (Routledge Revivals) Mats Lundahl, 2015-05-15 Haiti is a country which until the earthquake of 2010 remained largely outside the focus of world interest and outside the important international historical currents during its existence as a free nation The nineteenth century was the decisive period in Haitian history serving to shape the class structure the political tradition and the economic system During most of this period Haiti had little contact with both its immediate neighbours and the industrialised nations of the world which led to the development of Haiti as a peasant nation This title first published in 1979 examines the factors responsible for the poverty of the Haitian peasant by using both traditional economic models as well as a multidisciplinary approach incorporating economics and other branches of social science The analysis deals primarily with the Haitian peasant economy from the early 1950s to the early 1970s examining in depth the explanations for the secular tendency of rural per capita incomes to decline during this period *Forthcoming Books* Rose Arny, 1987 *Subject Guide to Books in Print*, 1991 Man and Land in the Haitian Economy Maurice De Young, 1958 **The Political Economy of Disaster** Mats Lundahl, 2013-02-11 Haiti one of the least developed and most vulnerable nations in the Western Hemisphere made the international headlines in January 2010 when an earthquake destroyed the capital Port au Prince More than a year later little reconstruction has taken place in spite of a strong international funding commitment Mats Lundahl has written several seminal works on Haiti and this volume brings together the best of his past work on Haiti's economic and political history along with a comprehensive introduction and two new chapters which bring the story right up to the present day Together the volume provides both historical background and explanation as to why Haiti was so badly affected by the earthquake and to why reconstruction efforts have been ineffective this far Lundahl argues that the two main causes can be found in the interaction between the growth of the population and the destruction of the arable soil on the one hand and in the creation of a predatory state during the nineteenth century which still exists to this day This book provides a comprehensive analysis which charts these themes from the time of the arrival of Columbus in the island in 1492 to the present day The book also deals with contemporary market and policy failures as well as the crucial recent elections and considers the path ahead for this impoverished nation This book will be of huge relevance and interest not only to students and researchers in economic history but also for all those working on development economics development studies and

Jaffe, 1990 Political Economy in Haiti Simon M. Fass, 2020-02-13 This important study introduces the conceptual premise that families like firms analyze their circumstances make decisions and pursue courses of action on the basis of what they perceive to be the most efficient methods for producing and reproducing survival Combining this premise with an extraordinary assemblage of facts gleaned over the period of a decade from the streets markets and homes of Port au Prince the author weaves a tapestry of despair and hope which only an unusual degree of intimacy with the details of everyday life in the city could provide The result is a considerable deepening of understanding about the politics and economics by which family members earn their livelihoods distribute resources within and between households produce life and labor from food and water provide shelter and schooling for themselves and borrow money to finance these and other activities These different dimensions of daily existence form a web of interdependency in which change in any one dimension causes change in all the others As Professor Pass's work demonstrates research and development assistance practices of public and private organizations in such areas as employment health housing education and credit are often irrelevant This is because they are necessarily guided by prevailing concepts and theories with respect to the circumstances of the urban poor which sometimes do the poor considerable disservice With the additional insight provided by a decade of participation in the design of policies programs and projects serving as a tempering influence the author does not leap to easy criticism of prevailing views and practices He notes that ideas and interventions change in response to new understanding sometimes in ways that the producers of such understanding could never have imagined The problem is that change is painfully slow and in desperately poor countries like Haiti waiting for change exacts an almost intolerable price from the poor This book is a provocative yet highly original contribution which will require serious attention from scholars and practitioners of development Appearing as it does soon after the great seaward exodus of Haitians and urban unrest culminating in the flight of the Duvalier family this timely volume will provide illumination for those seeking to understand the circumstances that press people to risk all in the name of survival Haiti In The World Economy Alex Dupuy, 1989-01-18 **Capital Controls and the Parallel Exchange Rate Market in the Haitian Economy** Kathleen Dorsainvil, 1992
