The Immobile Empire:

The Immobile Empire Alain Peyrefitte, 2013-05-21 In 1793 Lord George Macartney and an enormous delegation including diplomats doctors scholars painters musicians soldiers and aristocrats entered Beijing on a mission to open China to British trade But Macartney's famous refusal to perform the traditional kowtow before the Chinese Emperor was just one sign that the two empires would not see eye to eye and the trade talks failed The inability to develop a trade relation would have enormous consequences for future relations between China and the West Peyrefitte's vivid narrative of this fascinating encounter is based on extraordinary source materials from each side including the charming and candid diary of Thomas Staunton the son of one of Macartney's aides An example of history at its finest *The Immobile Empire* recaptures the extraordinary experience of two great empires in collision sizing each other up for the first time **China** Eileen

Tamura, 1997-01-01 *China Understanding Its Past* aims to fill a conspicuous gap in conventional world history texts which are often Eurocentric and give scant attention to Asia Using role playing simulations debates primary documents first person accounts excerpts from literary works and cooperative learning activities this text will help students explore many key aspects of China's history and culture The teacher's manual includes a synopsis of each chapter and section learner outcomes definitions of key concepts directions for student activities and possible responses to questions posed in the student text The CD contains selections of Chinese music from different time periods and locales Liner notes include English translations of lyrics as well as historical information about each selection **Quest for Status** Deborah Welch

Larson, Alexei Shevchenko, 2019-02-26 A look at how the desire to improve international status affects Russia's and China's foreign policies Deborah Welch Larson and Alexei Shevchenko argue that the desire for world status plays a key role in shaping the foreign policies of China and Russia Applying social identity theory the idea that individuals derive part of their identity from larger communities to nations they contend that China and Russia have used various modes of emulation competition and creativity to gain recognition from other countries and thus validate their respective identities To make this argument they analyze numerous cases including Catherine the Great's attempts to westernize Russia China's identity crises in the nineteenth century and both countries' responses to the end of the Cold War The authors employ a multifaceted method of measuring status factoring in influence and inclusion in multinational organizations military clout and cultural sway among other considerations Combined with historical precedent this socio psychological approach helps explain current trends in Russian and Chinese foreign policy **Everything Under the Heavens** Howard W. French, 2017-03-14 From the former

New York Times Asia correspondent and author of *China's Second Continent* an incisive investigation of China's ideological development as it becomes an ever more aggressive player in regional and global diplomacy For many years after its reform and opening in 1978 China maintained an attitude of false modesty about its ambitions That role reports Howard French has been set aside China has asserted its place among the global heavyweights revealing its plans for pan Asian dominance by

building its navy increasing territorial claims to areas like the South China Sea and diplomatically bullying smaller players Underlying this attitude is a strain of thinking that casts China's present day actions in decidedly historical terms as the path to restoring the dynastic glory of the past If we understand how that historical identity relates to current actions in ways ideological philosophical and even legal we can learn to forecast just what kind of global power China stands to become and to interact wisely with a future peer Steeped in deeply researched history as well as on the ground reporting this is French at his revelatory best

Competitors Stephane Garelli, 2006-03-30 Three decades ago competitiveness was unheard of today it has taken the world by storm But what is it And will it last In *Top Class Competitors* St phane Garelli professor at IMD business school where he is also head of the World Competitiveness Centre professor at the University of Lausanne and former managing director of the World Economic Forum defines competitiveness as the ability of a nation company or individual to manage a set of disparate competencies to achieve prosperity For instance along with traditional policies a nation must tackle education and security to sustain economic development Companies must manage soft issues such as brands to beat the competition And individuals must reinvent themselves to survive These fields of research did not exist until recently now competitiveness makes the link *Top Class Competitors* is a journey through the brave new world of competitiveness What are its historical origins How does it impact the management of a nation How do companies thrive on it in an international environment What is the impact on work structures and value systems Above all is there a competitiveness mindset Exploring how competitiveness works St phane Garelli shows why competitiveness is the most powerful tool available to unleash new levels of prosperity for nations profit for companies and success for people *China's Political Economy in Modern Times* Kent G Deng, 2011-10-04 This book makes an important contribution to the study of changes in China's institutions and their impact on the national economy as well as ordinary people's daily material life from 1800 to 2000 Kent Deng reveals China's mega cycle of prosperity poverty prosperity without the usual attribution to the 1840 Opium War or the alleged population pressure class struggle and oriental despotism The book challenges the conventional view on rebellions revolutions and their alleged motivations and outcomes Its findings separate commonly circulated myth with reality based on solid evidence and careful evaluation The benchmark used by the author is people's entitlement and mundane day to day material well being instead of the stereotype of aggregates of industrial hardware and national GDP China's Political economy in Modern Times proves that state building was the prime mover in China's modern history Contrary to the popular belief in mass movement Deng shows convincingly that changes were in most cases imposed by a minority with external help Therefore the quality of the state was unpredictable seen from the anti state that cost lives and economic growth This book will be of interest to

students and scholars of Chinese Politics Chinese Economics Chinese History and Political Economy *Economic Strategies in Times of Crises* Marius Stoicescu, 2018-10-23 This book is the result of the selection and processing of the ideas underlying historical events All conflicts are carefully prepared and nobody goes to battle without a well defined strategy So called spontaneous events are planned years before and nothing is left to chance Everything is amplified according to a logic which is verified by human nature by education or the lack thereof It is critical to concentrate forces to create a new federal state In order to ensure the survival of the works of those who wrote the history of the last 2000 years we need unity and not disarray After a third conflagration the great powers may still unite but under completely different interconnecting circumstances Through detailed analysis of the factors influencing major historical and economic events we can realise that our planet is affected by numerous unbalances including those of a spiritual ecological economic and demographic nature which may result in unexpected turns in the development of human beings The survival of the European population is currently in danger with many factors which place human developments at risk As such this book looks into the trends and issues that when addressed can result in the socio economic and ecological re balancing of our planet **Britain's Second Embassy to China** Caroline Stevenson, 2021-02-01 Lord Amherst's diplomatic mission to the Qing Court in 1816 was the second British embassy to China The first led by Lord Macartney in 1793 had failed to achieve its goals It was thought that Amherst had better prospects of success but the intense diplomatic encounter that greeted his arrival ended badly Amherst never appeared before the Jiaqing emperor and his embassy was expelled from Peking on the day it arrived Historians have blamed Amherst for this outcome citing his over reliance on the advice of his Second Commissioner Sir George Thomas Staunton not to kowtow before the emperor Detailed analysis of British sources reveal that Amherst was well informed on the kowtow issue and made his own decision for which he took full responsibility Success was always unlikely because of irreconcilable differences in approach China's conduct of foreign relations based on the tributary system required submission to the emperor thus relegating all foreign emissaries and the rulers they represented to vassal status whereas British diplomatic practice was centred on negotiation and Westphalian principles of equality between nations The Amherst embassy's failure revised British assessments of China and led some observers to believe that force rather than diplomacy might be required in future to achieve British goals The Opium War of 1840 that followed set a precedent for foreign interference in China resulting in a century of humiliation This resonates today in President Xi Jinping's call for National Rejuvenation to restore China's historic place at the centre of a new Sino centric global order China's Diplomacy over the Northeast Question Ideologies, Thoughts and Values, 1858 - 1919 Xichao Yu, 2024 This book explores the formation of modern Chinese diplomacy by examining how classical Chinese philosophy influenced diplomatic responses to foreign encroachments in Northeast China or Manchuria during the historical period from the signing of the Treaty of Aigun in 1858 to China's participation in the Paris Peace Conference in 1919 Drawing primarily on Qing dynasty and Beiyang government diplomatic archives and classical

Chinese historiography it highlights the role of Confucian based principles in shaping the diplomatic thinking of the Qing dynasty and Beiyang governments Through a top down state centric analysis the research suggests that these traditional Chinese cultural values provided a distinct intellectual and theoretical framework for modern Chinese leaders guiding diplomatic decisions amid foreign incursions and modernisation pressures It underscores the lasting impact of China s traditional cultural knowledge on its diplomatic evolution particularly in resolving the so called Northeast Question

R. Platt, 2019-04-23 As China reclaims its position as a world power Imperial Twilight looks back to tell the story of the country's last age of ascendance and how it came to an end in the nineteenth century Opium War As one of the most potent turning points in the country's modern history the Opium War has since come to stand for everything that today's China seeks to put behind it In this dramatic epic story award winning historian Stephen Platt sheds new light on the early attempts by Western traders and missionaries to open China even as China's imperial rulers were struggling to manage their country's decline and Confucian scholars grappled with how to use foreign trade to China's advantage The book paints an enduring portrait of an immensely profitable and mostly peaceful meeting of civilizations that was destined to be shattered by one of the most shockingly unjust wars in the annals of imperial history Brimming with a fascinating cast of British Chinese and American characters this riveting narrative of relations between China and the West has important implications for today's uncertain and ever changing political climate

The Sino-Japanese War of 1894-1895 S. C. M. Paine, 2002-11-18 The Sino Japanese War of 1894 1895 is a seminal event in world history yet it has been virtually ignored in Western literature In the East the focus of Chinese foreign policy has been to undo its results whereas the focus of Japanese foreign policy has been to confirm them Japan supplanted China as the dominant regional power disrupting the traditional power balance and fracturing the previous international harmony within the Confucian world leaving enduring territorial and political fault lines that have embroiled China Japan Korea Russia and Taiwan ever since The book examines the war through the eyes of the journalists who filed reports from China Japan Russia Europe and the United States showing how the war changed outside perceptions of the relative power of China and Japan and the consequences of these changed perceptions namely the scramble for concessions in China and Japan's emergence as a great power

The Enlightenment Anthony Pagden, 2013-05-23 This book tells nothing less than the story of how the modern Western view of the world was born Cultural and intellectual historian Anthony Pagden explains how and why the ideal of a universal global and cosmopolitan society became such a central part of the Western imagination in the ferment of the Enlightenment and how these ideas have done battle with an inward looking tradition oriented view of the world ever since Cosmopolitanism is an ancient creed but in its modern form it was a creature of the Enlightenment attempt to create a new science of man based upon a vision of humanity made up of autonomous individuals free from all the constraints imposed by custom prejudice and religion As Pagden shows this new science was based not simply on cold calculating reason as its critics claimed but on the argument that all humans are linked by what in the Enlightenment were called sympathetic attachments The conclusion was that despite the many tribes and nations into which humanity was divided there was only one human nature and that the final destiny of the species could only be the creation of one universal cosmopolitan society This new human science provided the philosophical grounding of the modern world It has been the inspiration behind the League of Nations the United Nations and the European Union Without it international law global justice and human rights legislation would be unthinkable As

Anthony Pagden argues passionately and persuasively in this book it is a legacy well worth preserving and one that might yet come to inherit the earth
